

**AUGUST 28, 2008**

**AGENDA ITEM # 7**

**INFORMATIONAL PRESENTATION ON NEW MEASURE A CAPITAL PROJECT:  
ELK GROVE—RANCHO CORDOVA—EL DORADO CONNECTOR**

**Action Requested:** Receive and file

**Key Staff:** Brian Williams, Executive Director

---

**Recommendation**

Receive and file an informational presentation on the Elk Grove—Rancho Cordova—El Dorado Connector Joint Powers Authority's effort to design and construct a new multimodal expressway connecting the southern and eastern portions of Sacramento County.

**Discussion**

Today, we continue an occasional series of informational presentations on **New** Measure A capital projects. Elk Grove—Rancho Cordova—El Dorado JPA staff will provide an overview of current governance, planning, and environmental activities that will ultimately lead to construction of a new multimodal expressway linking the Cities of Elk Grove, Rancho Cordova, and Folsom and the western portion of El Dorado County. This new facility is needed to accommodate travel between these burgeoning housing and employment centers.

Approximately, \$131 million is earmarked for this project in the **New** Measure A Plan of Finance. Total project cost estimates vary according to the ultimate routing of the project, but will likely approximate \$750 million. Sources for the majority of project funding are as yet undetermined.

C: Tom Zlotkowski: Elk Grove—Rancho Cordova—El Dorado JPA
