

City of Rancho Cordova

Measure A Update

Presented by Albert Stricker, P.E., Public Works Director

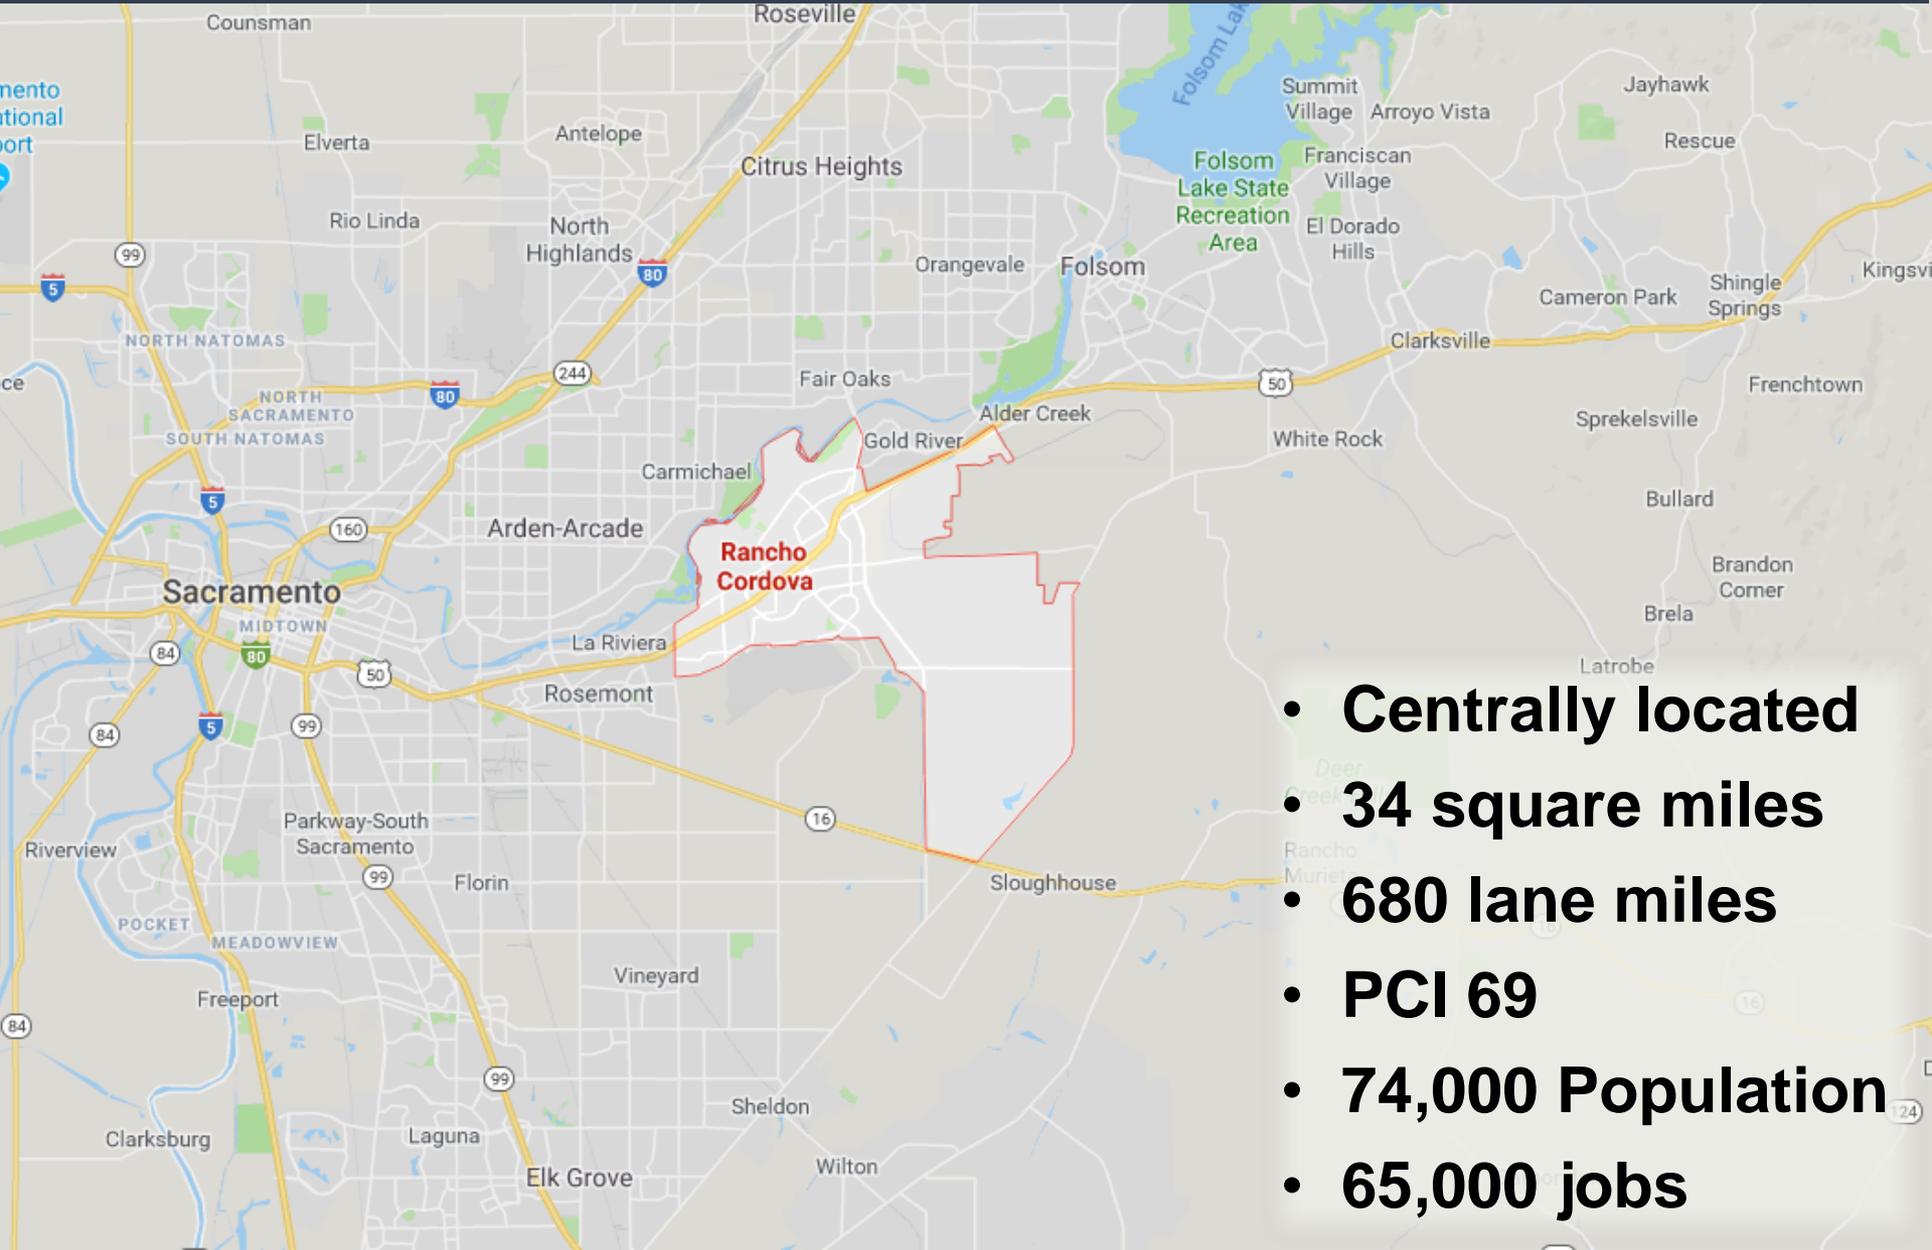

a fresh take.

RANCHO CORDOVA
CALIFORNIA

Presentation Outline

- **Current state of Rancho Cordova**
- **Select Measure A accomplishments**
- **Challenges**
- **Receive input from the Board**

City of Rancho Cordova

- **Centrally located**
- **34 square miles**
- **680 lane miles**
- **PCI 69**
- **74,000 Population**
- **65,000 jobs**

Select Accomplishments: International Bridge

Provides alternative capacity to busiest arterial in region and route with upgraded bicycle and pedestrian facilities.

**Project Delivered 2011
Measure A Total - \$2.6 M
Total Value - \$13.8 M**

Select Accomplishments: Folsom Streetscape Phases 1, 2 and 3

Connects Transit, businesses, schools and neighborhoods with rehabilitated roads, bike/ped improvements, transit connections and beautification. 3.3 miles improved.

**Project Delivered 2012
Measure A - \$4.7 M
Total Project - \$24.5 M**

Select Accomplishments: Zinfandel Bike and Pedestrian Signals

Completed important 5 mile neighborhood loop.
Connects transit, businesses, schools and neighborhoods.
Encourages alternative modes of transportation.

Project Delivered 2018
Measure A - \$78,000
Total Project - \$737,000

Under Construction and Coming Soon Folsom Streetscape Project Phases 4 and 5

Connects Transit, businesses, schools and neighborhoods with rehabilitated roads, bike/ped improvements, transit connections and beautification. 1 mile improved.

Measure A - \$6 M
Total Project - \$15 M

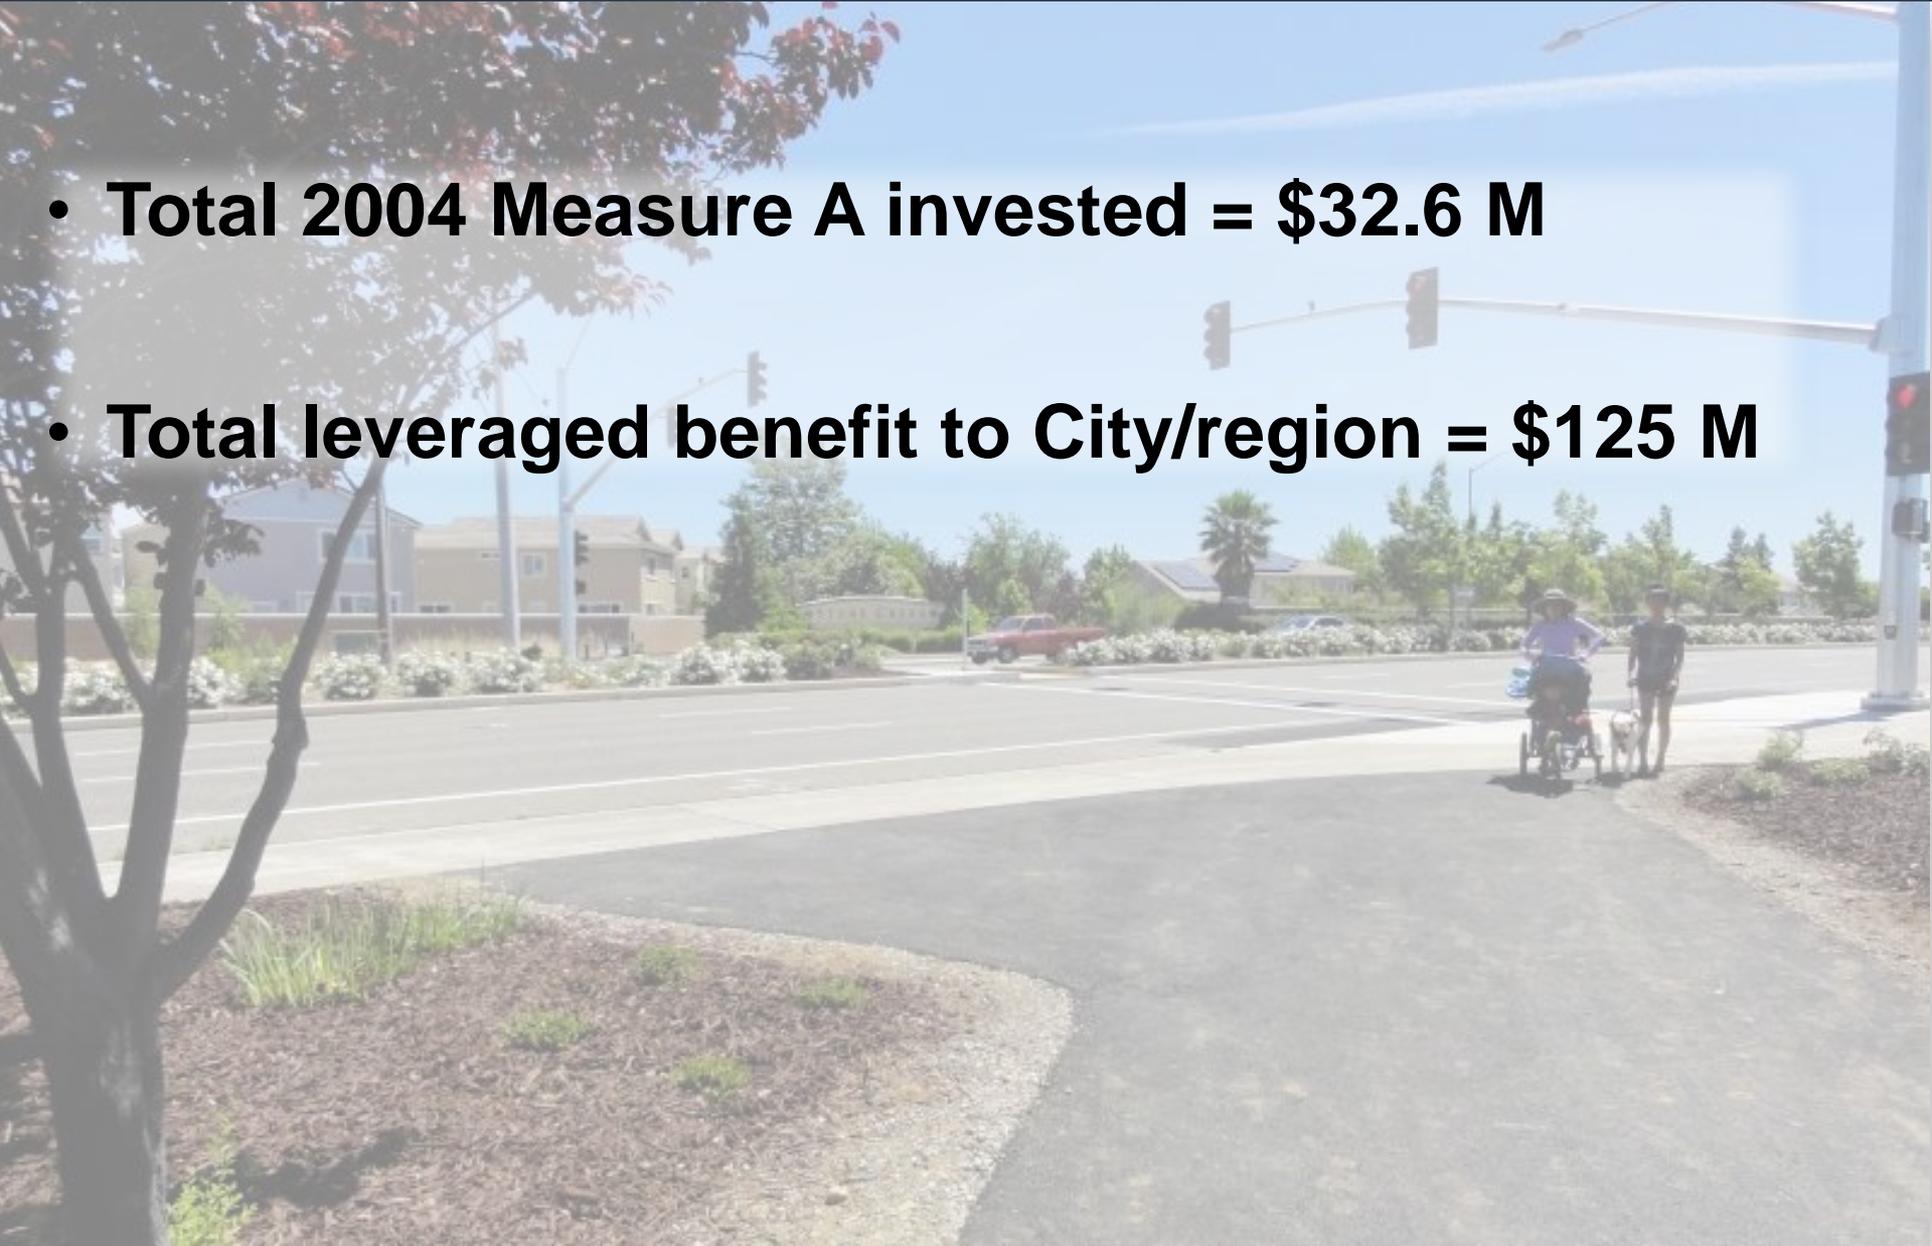

Select Accomplishments

- And many more:
 - Neighborhood road rehabilitation
 - Sidewalk repair
 - Neighborhood traffic calming
 - High visibility crosswalks

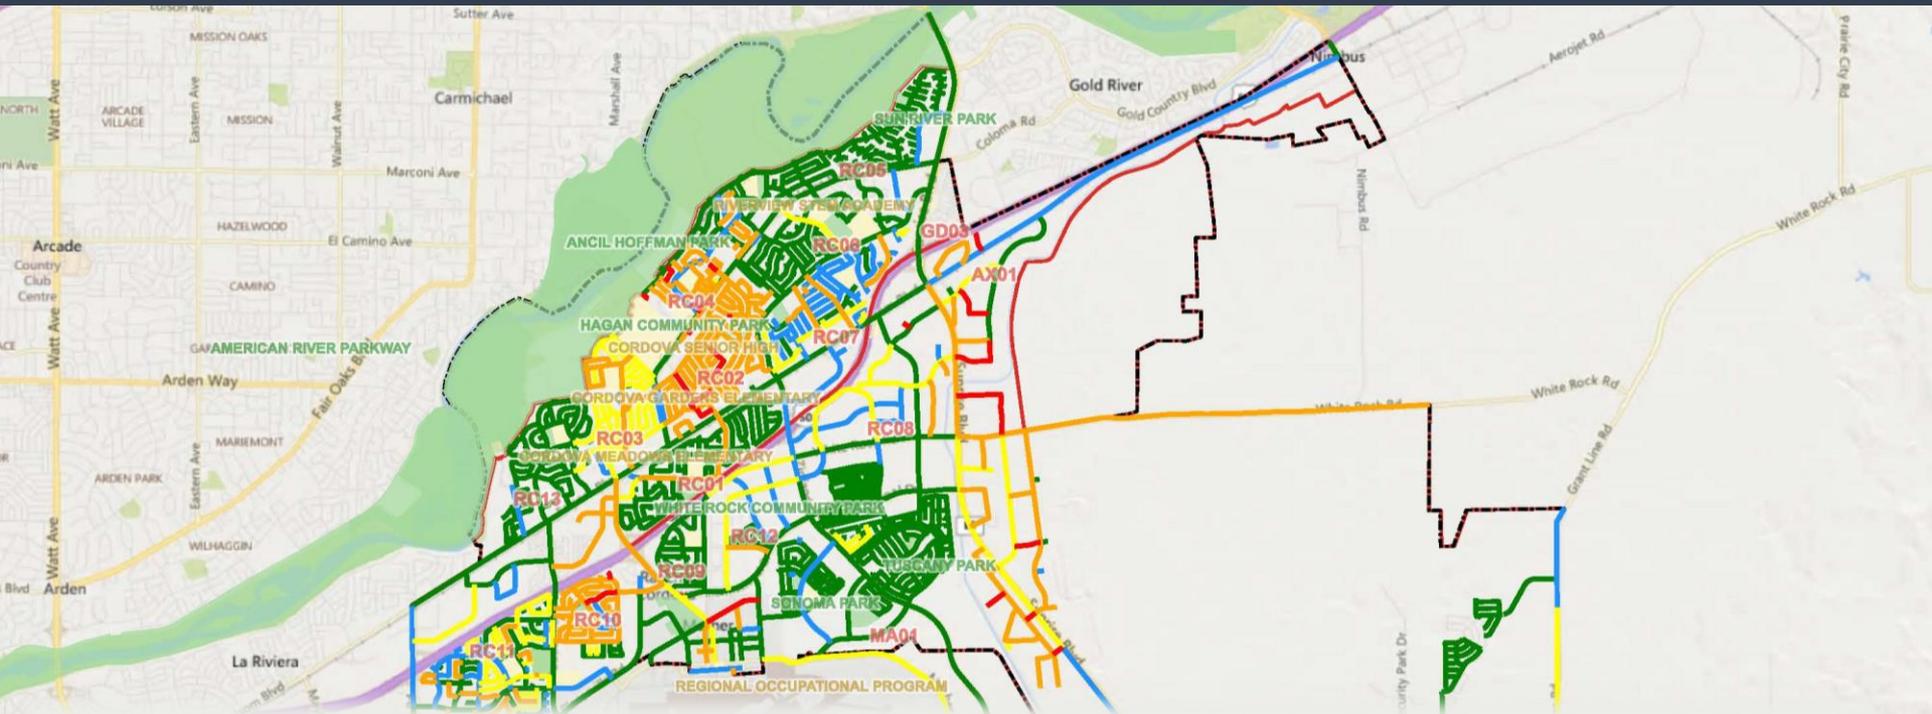

Summary of Accomplishments

- **Total 2004 Measure A invested = \$32.6 M**
- **Total leveraged benefit to City/region = \$125 M**

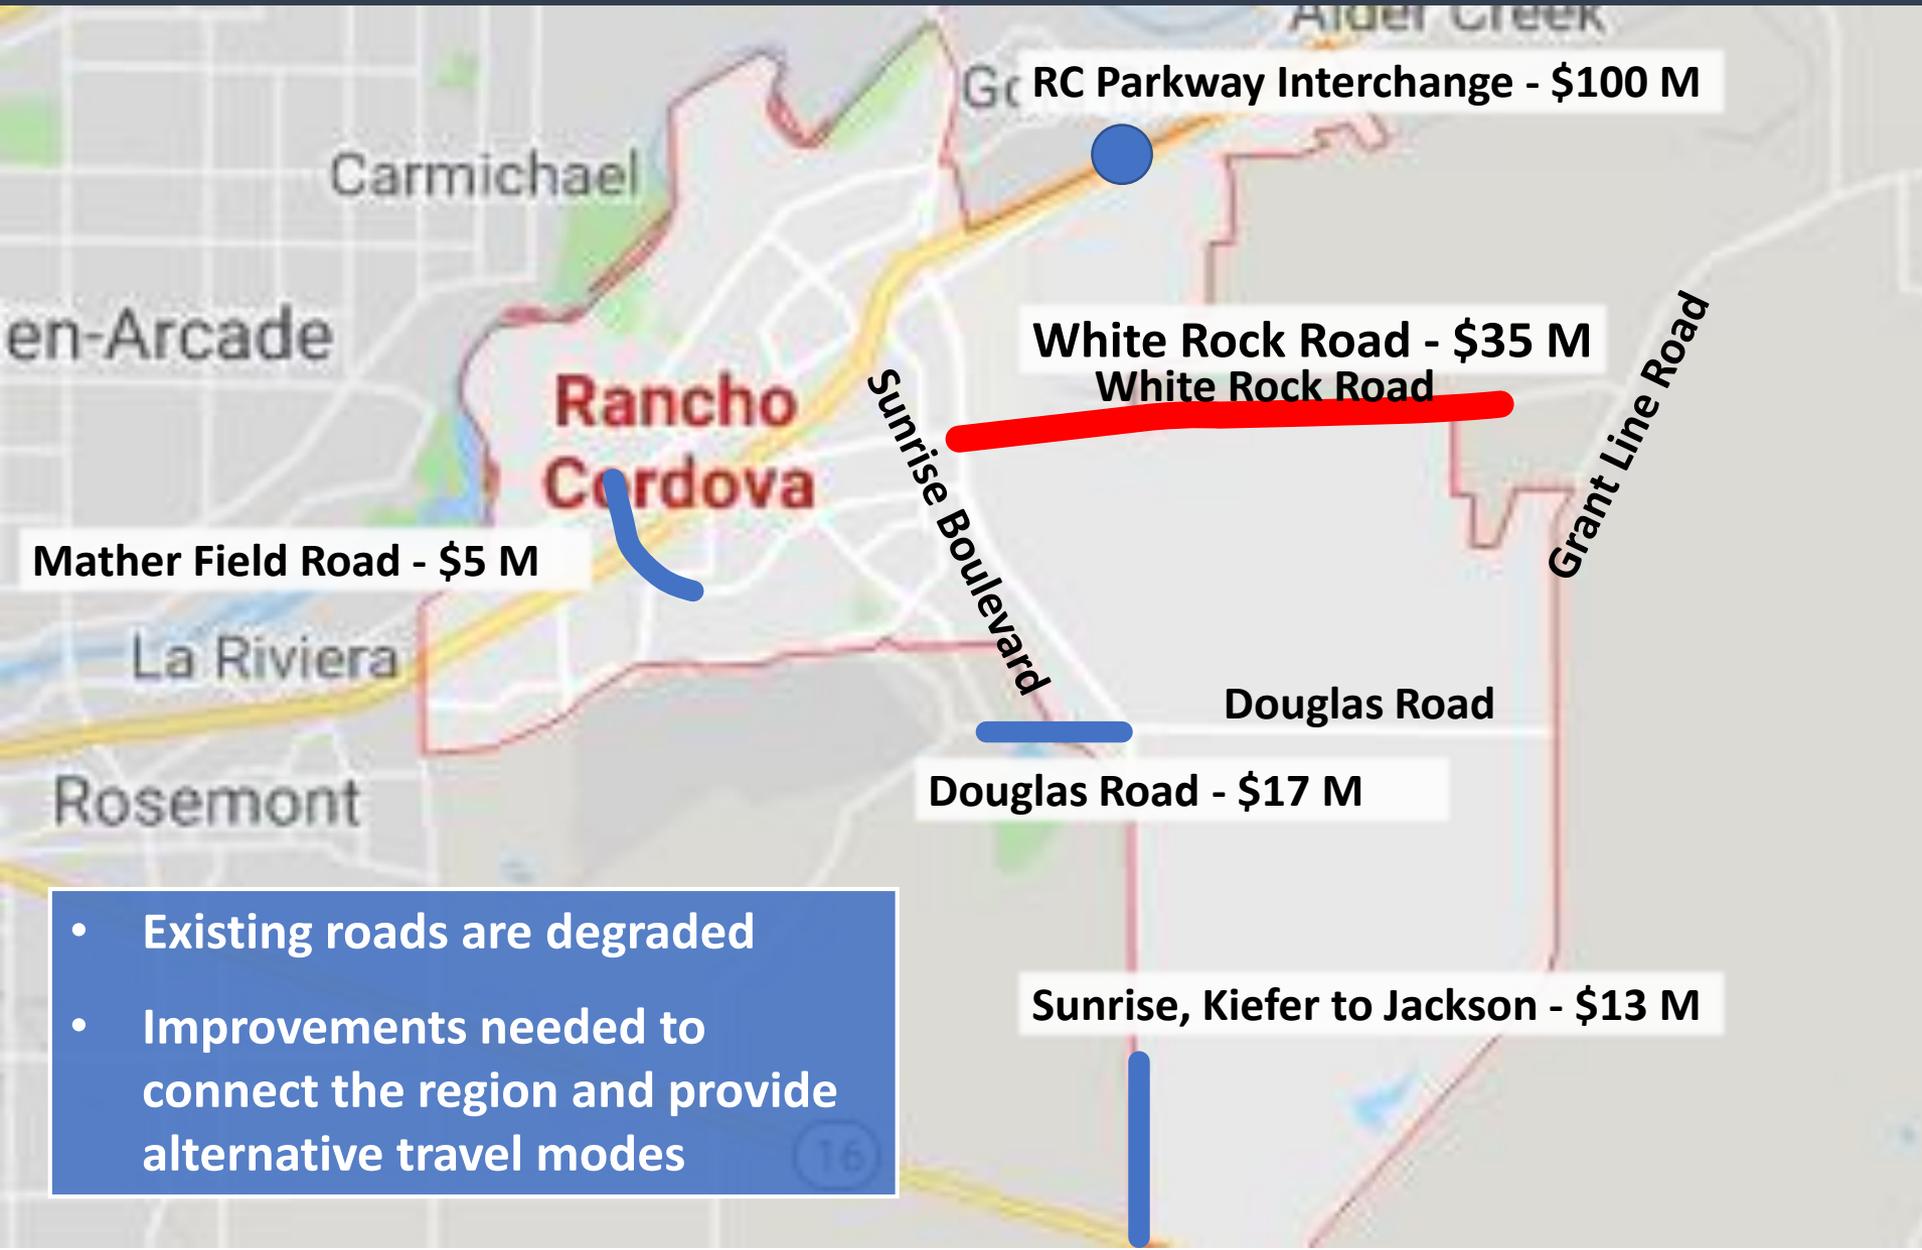

Challenges – Deferred Maintenance

- Average PCI = 69
- Deferred pavement maintenance = \$63 M
- Need \$112 M over 10 years to reach PCI 80 and reduce deferred pvmt. maint. to \$27 M
- Additional \$30 M in required sidewalk improvements
- \$90 M shortfall over next 10 years

Challenges – Critical Connections \$170 M

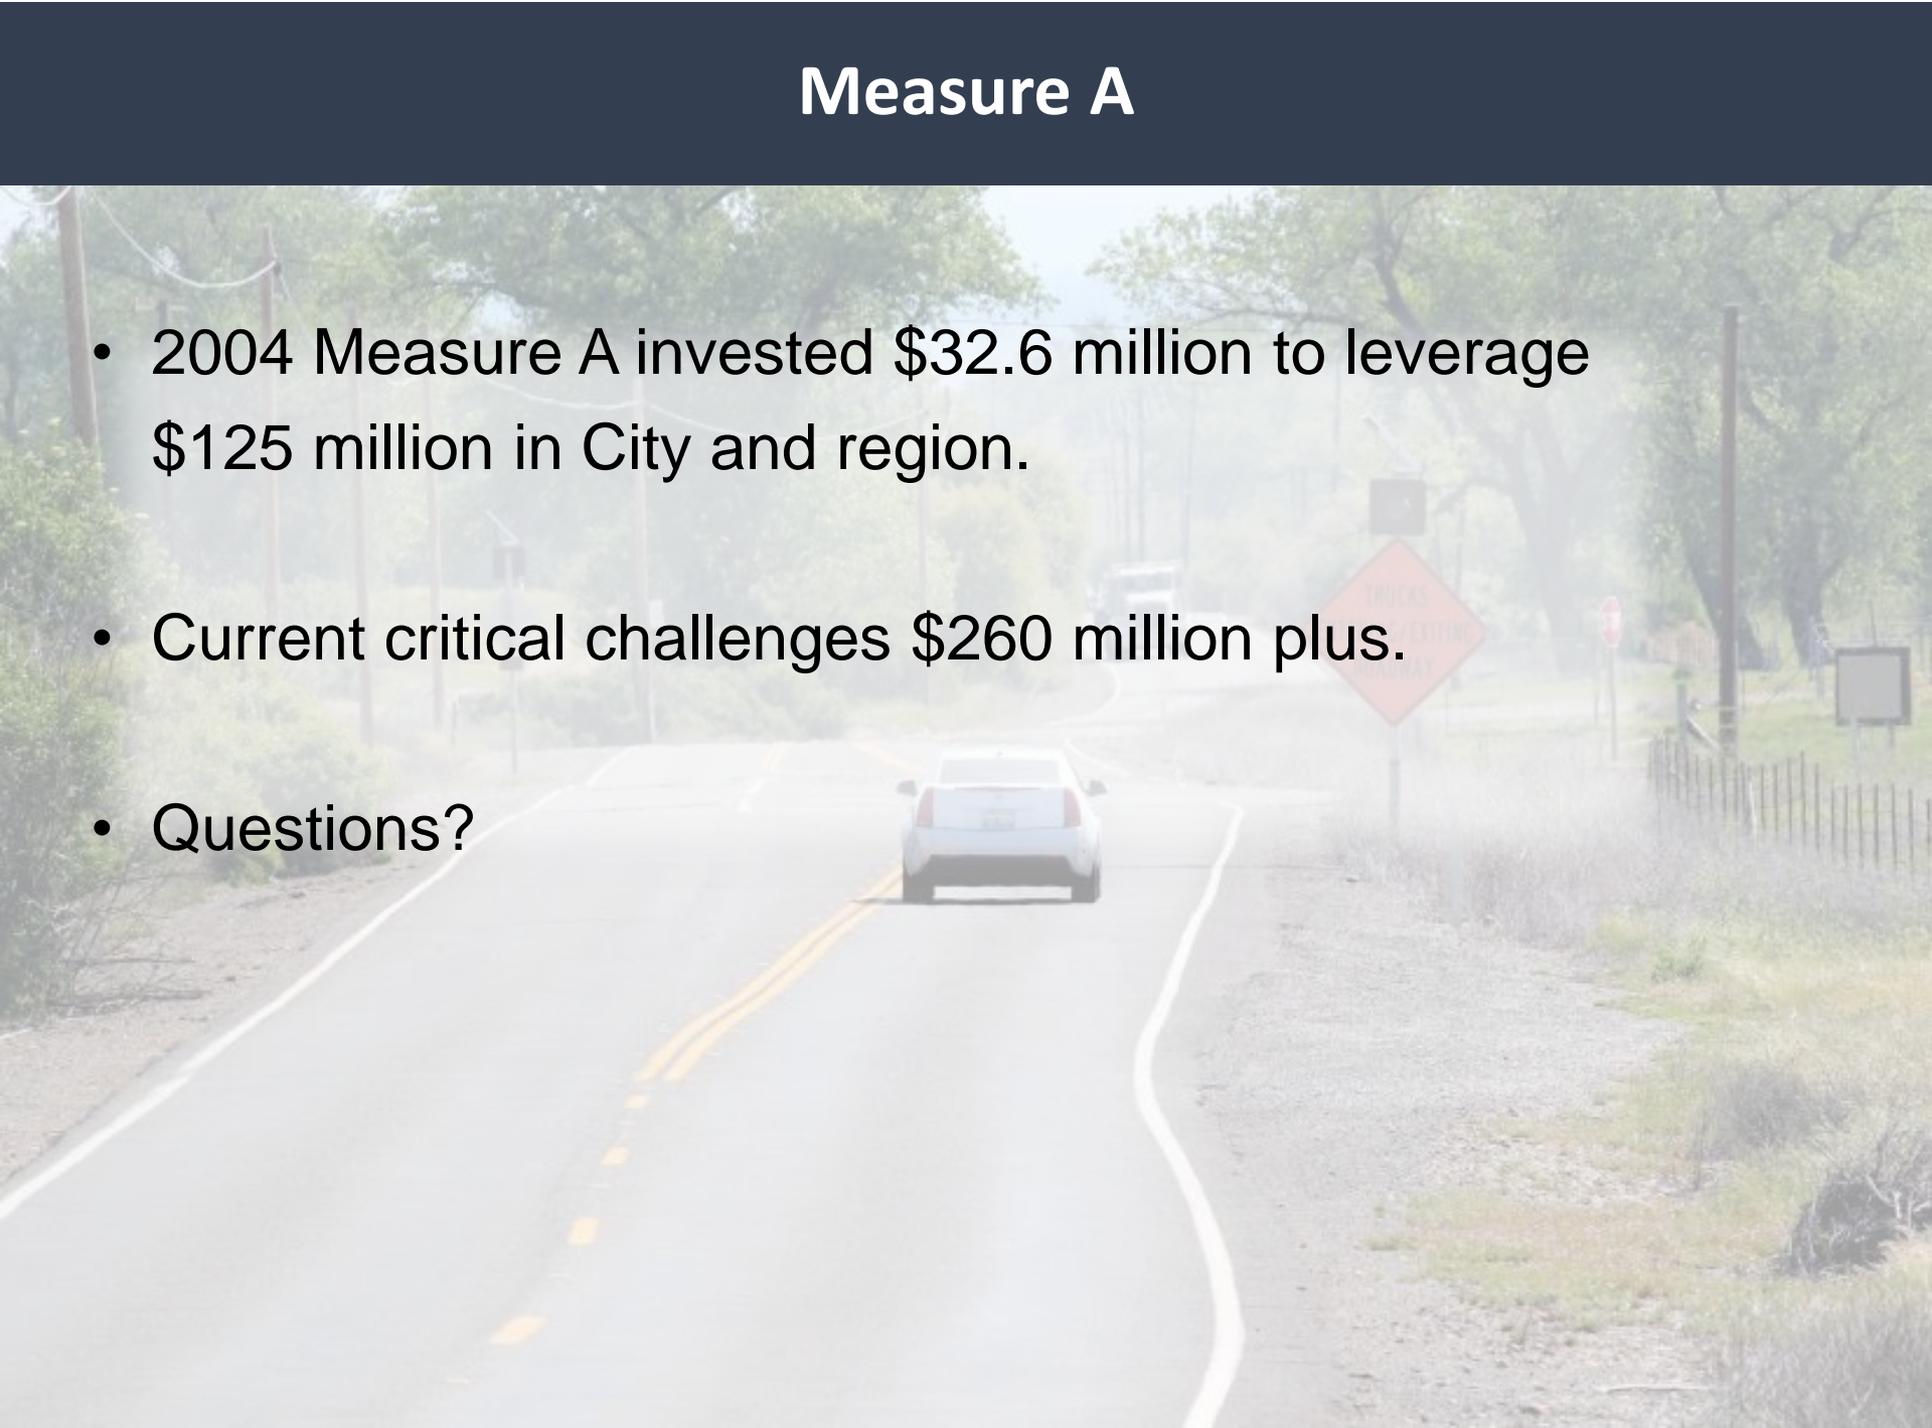

- Existing roads are degraded
- Improvements needed to connect the region and provide alternative travel modes

Challenges – White Rock Road Existing Conditions

- Congestion between communities to east and job centers.
- No bicycle or pedestrian accommodation.
- Poor visibility and limited capacity.
- Travelers have safety concerns.
- A barrier to local and regional housing.

Measure A

- 2004 Measure A invested \$32.6 million to leverage \$125 million in City and region.
 - Current critical challenges \$260 million plus.
 - Questions?
- 
- The background image is a faded photograph of a road. A white car is driving away from the viewer in the center of the road. To the right of the road, there is a diamond-shaped warning sign that says 'TRUCKS'. The road is lined with trees and a fence on the right side. The overall image has a light, hazy appearance.
