

# City of Citrus Heights

**Measure A Update  
Accomplishments and Unmet  
Transportation Needs**

**Presented by Regina Cave,  
Operations Manager  
April 11, 2019**

# City of Citrus Heights

- 14 square miles
- Population of 88,000
- 58 signalized intersections
- One freeway interchange
- 464 lane miles
- Average PCI 60\*

# Overview of Measure A Successes

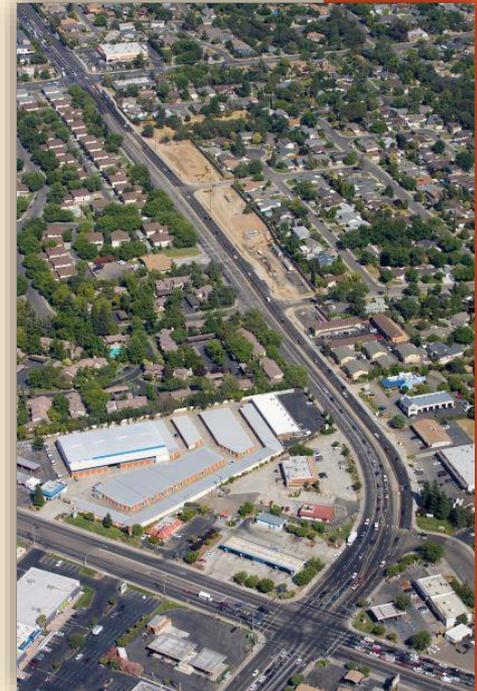

- Antelope Road Improvements Project
  - Widened Antelope Road from I-80 to east of Roseville Road to help reduce congestion, enhance transit use and provide continuous ADA, pedestrian and bicycle access (2009).
    - Total Project: Approx \$7 million
    - Total Measure A: Approx \$1 million

# Overview of Measure A Successes

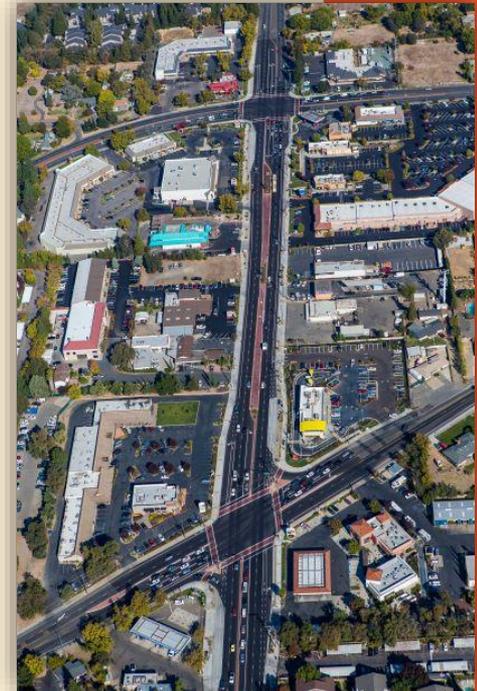

- Greenback Lane Phases I and II
  - Widened Greenback Lane from San Juan to Dewey (2000), and Dewey to Auburn Blvd (2008) to help reduce congestion, enhance transit use and provide continuous ADA, pedestrian and bicycle access.
    - Total Project: Approx \$18 million
    - Total Measure A: Approx \$5 million

# Overview of Measure A Successes

- Sunrise Boulevard Complete Streets Phases I, II and III
  - Constructed over 7000 lf of new sidewalk infill, reconstructed over 5800 lf of non compliant sidewalk; new ADA compliant infrastructure. (2018)
    - Total Project: Approx \$12.5 million
    - Total Measure A: Approx \$5.5 million

# Overview of Measure A Successes

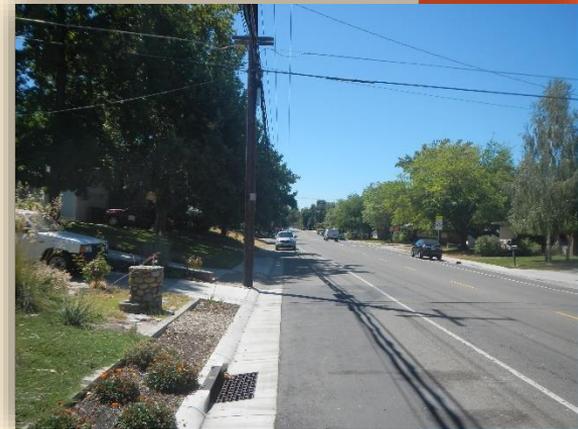

## Additional projects and programs benefited by Measure A:

- ADA curb ramp projects
- Multi-phased Safe Routes to School Projects
- Residential resurfacing projects
- Sidewalk repairs
- Street light LED conversions
- Traffic calming – neighborhoods and in partnership with schools

# Coming Soon

- Mariposa Avenue Safe Routes to School Ph III
  - Infill of approx. 1500 lf of new sidewalk, ADA, pedestrian and bicycle improvements
    - Total Project: Approx \$2.3 million
    - Total Measure A: Approx \$350,000

# Overview of Transportation Challenges

- Road Maintenance
  - PCI of 60
  - Approximately \$60 million in backlog
- Traffic Signal Synchronization and Coordination
  - 58 owned/operated signalized intersections
  - Improve coordination with Roseville and Sacramento County

# Overview of Transportation Challenges

- Auburn Boulevard Complete Streets Phase II
  - Provide improved connectivity between Roseville and Citrus Heights
  - Address multi-modal needs
  - Encourage economic redevelopment
    - Total Project: Approx \$25 million
    - Total Secured to Date: \$9.5 million

# Overview of Transportation Challenges

- Antelope Road/I-80 Improvements
  - Only overpass within city limits
  - Traffic congestion
  - Limited ADA, pedestrian and bicycle access
    - Total Project: Approx \$18 million
    - Total Secured to Date: \$0

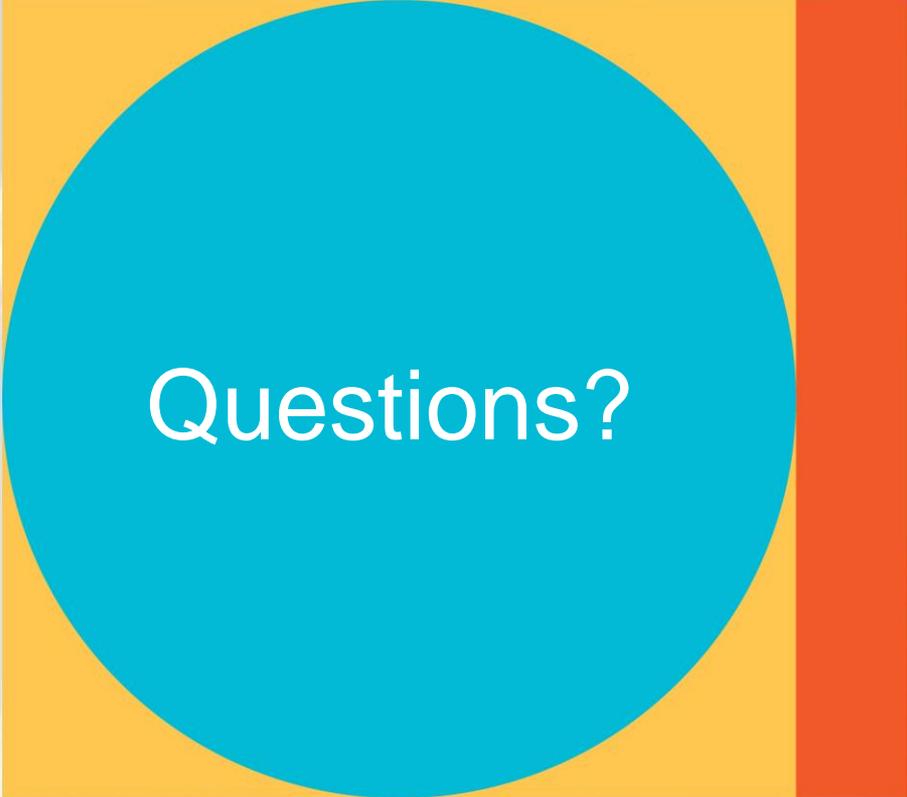

# Overview of Transportation Challenges

- San Juan Complete Streets
  - 3000 lf of sidewalk infill need; 2100 lf of sidewalk to reconstruct
  - Limited ADA, pedestrian and bicycle access; conflicts with utility poles
  - Poor pavement conditions
    - Total Project: Approx \$10 million
    - Total Secured to Date: \$0
