**DECEMBER 13, 2018**

**AGENDA ITEM # 2**

**EXECUTIVE DIRECTOR'S REPORT**

Action Requested: Receive and File

Key Staff: Norman Hom, Executive Director

---

**Governing Board**

November 8 marked the last STA Governing Board meeting for Citrus Heights Councilman Albert J. Fox and Galt Councilman Mark Crews. Albert Fox was appointed to the STA in May of 2017. Mark Crews began attending STA Board meetings earlier this year as the alternate for Curt Campion. We thank both Mr. Fox and Mr. Crews for their dedicated service to the STA and wish them well.

The City Councils of Citrus Heights and Galt will each appoint new representatives to the STA Governing Board in January 2019. The City of Folsom will also be appointing a new alternate to replace Councilman Andy Morin, who did not seek reelection.

At the first Board meeting in 2019 on February 14, the first order of business will be to elect a new chair and vice-chair for the 2019 calendar year.

**Senate Bill 1**

With the defeat of Proposition 6 in November and certainty that SB 1 will stay in effect, California Transportation Commission (CTC) and local agency staffs can now turn their attention to revising the SB 1 implementation guidelines. CTC had previously indicated they were open to making revisions after the first rounds of funding were programmed. Staff will seek to increase the proportion of funds distributed formulaically as opposed to statewide competition. This increases our county's chances of receiving its fair share of SB 1 funds while providing local staffs greater certainty for implementing their capital projects. We will also ask for an administrative allowance for programming the Local Partnership Program (LPP). Under the current guidelines, STA receives zero dollars to offset the significant amount of staff time incurred programming and managing the LPP.

**Measure A**

Last month, your Board selected Townsend|Calkin|Tapio Public Affairs (TCT) as the consultant for the STA's public education and community outreach effort. The consultant contract was executed on November 8 and TCT immediately commenced work in accordance with their plan's scope of work and timeline. TCT will present an update to a committee of the Board in early January and receive comment and direction regarding community outreach and implementation of the expenditure plan development schedule plus other action items. TCT will present to the full Board on February 14 as part of the effort's public process kickoff.

### **Independent Taxpayer Oversight Committee (ITOC)**

Joan Borucki, Chair of the Independent Taxpayer Oversight Committee, will present the results of the financial audit for Fiscal Year 2018 plus the Comprehensive Annual Financial Report (CAFR) in Item 10 of today's agenda. There were no audit findings.

The ITOC met with the STA's Professional Advisory Group (PAG)—comprised of directors and senior staff from each of the Measure A recipient entities—on November 15 to solicit and receive input on new Measure A performance standards. The ITOC plans to present proposed new standards to the Board in the spring ahead of a comprehensive performance audit later in 2019.

The next ITOC meeting will be January 17, 2019 in Hearing Room 1 of the Sacramento County Administration Building at 700 H Street, Downtown Sacramento, at 4:00 p.m. For more information, please check the ITOC website at [www.sacitoc.org](http://www.sacitoc.org). Members of the public are encouraged to attend.

### **SacMetro Freeway Service Patrol (FSP)**

Caltrans still has not issued the Fund Transfer Agreements for this fiscal year's regular FSP or SB 1 supplemental FSP funding. The SacMetro FSP Program is temporarily operating on matching funds provided by the Capital Valley Region Service Authority for Freeways and Expressways (CVR-SAFE) via the Sacramento Area Council of Governments (SACOG) but that funding is limited and may only last for 2 more months. The inability to get access to our FSP funds at the State until four or eight months *after* the start of each fiscal year has been an annually recurring problem.

We are receiving a good response to the Request for Qualifications (RFQ) issued last month. Already, seven tow companies have expressed interest in the program and/or submitted qualifications even though the submittal period does not close until January 7. Item 8 of today's agenda is to authorize staff to establish the pool of qualified bidders and distribute a Request for Bids (RFB) for current FSP beats on Interstates 5 and 80. Normally, the Board would establish the pool of qualified bidders but due to the sudden and unanticipated contract termination last month, time is of the essence and we must act to get a replacement contractor in place as soon as possible.

### **Sacramento Abandoned Vehicle Service Authority (SAVSA)**

FY2019 first quarter revenues of \$327,794 are nearly identical to first quarter revenues last year. Abatements, however, rose significantly—5,078 compared to 3,565—an increase of over 42 percent. The complete status report is Item 6 on today's agenda.

### **Looking Ahead**

The next meeting of the STA Governing Board is **February 14, 2019**. Items tentatively planned are:

- Selection of the 2019 STA Board Chair and Vice-Chair
- Presentation on all SB 1 allocations, projects, and programs in Sacramento County
- STA Public Education and Community Outreach Effort Public Process Kickoff

**DECEMBER 13, 2018**

**AGENDA ITEM # 3**

**ACTION SUMMARY: NOVEMBER 8 STA GOVERNING BOARD MEETING**

Action Requested: Approve

Key Staff: Norman Hom, Executive Director

---

**Recommendation**

Approve the attached Action Summary of the November 8, 2018 meeting of the STA Governing Board.

*Attachment*

**ACTION SUMMARY**  
**SACRAMENTO TRANSPORTATION AUTHORITY**  
**SACRAMENTO ABANDONED VEHICLE SERVICE AUTHORITY**  
**700 "H" STREET - SUITE 1450**

**Sierra Club – Mother Lode**

**WALKS Sacramento**

1:37 PM Board Action: Presentations were given. No Board Action.

## 9. Selection of Consulting Team To Perform Public Education And Community Outreach

2:19 PM Board Action: Steve Hansen/ Eric Guerra – Approved selection of consulting team to perform public education and community outreach.

AYES: Albert J. Fox, Sue Frost, Eric Guerra, Steve Hansen, Jeff Harris, Patrick Hume, Patrick Kennedy, Don Nottoli, Susan Peters, Darren Suen, Mark Crews

NOES: (None)

ABSTAIN: (None)

ABSEN: Larry Carr, Garrett Gatewood, Kerri Howell, Jay Schenirer, Phil Serna

RECUSAL: (None)

(PER POLITICAL REFORM ACT (§ 18702.5.))

## 10. Comments Of Authority Members

2:28 PM Board Action: No comments were made.

Adjourned at 2:29 p.m.

Respectfully Submitted,

  
Renae McClain-White, Clerk  
Board of Directors

**DECEMBER 13, 2018**

**AGENDA ITEM # 4**

**CAPITAL PROJECT STATUS REPORTS – SEPTEMBER 30, 2018**

Action Requested: Receive and File

Presenter: Timothy Jones, Chief Financial Officer

---

The Authority is currently under contract for the following 15 capital projects:

1. US 50 Bus and Carpool Lanes, Phase 2 (California Department of Transportation)
2. Interstate 5 Bus and Carpool Lanes (California Department of Transportation)
3. Folsom Blvd. Watt Ave. to Bradshaw Rd. (County of Sacramento)
4. Hazel Ave. Improvements – US 50 to Folsom Blvd. (County of Sacramento)
5. Greenback Lane, Phase 1 – Fair Oaks Blvd. to Main (County of Sacramento)
6. Hazel Ave. Improvements, Phase 1 – US 50 to Madison Ave. (County of Sacramento)
7. Madison Ave Improvements, Phase 1 – Sunrise Blvd. to Hazel Ave. (County of Sacramento)
8. South Watt Ave./Elk Grove-Florin Road Improvements, Phase 1 – Florin Road to State Route 16 (County of Sacramento)
9. Sunrise Blvd. Jackson Rd. to Grantline Rd. (County of Sacramento)
10. Watt Ave. Improvements – Antelope Road to Business 80 (County of Sacramento)
11. Capital Southeast Connector (Connector JPA)
12. Folsom Blvd. Improvements – Bradshaw Road to Sunrise Blvd. (City of Rancho Cordova)
13. Downtown Intermodal Station (City of Sacramento)
14. Interstate 5/Richards Blvd. Interchange Upgrade (City of Sacramento)
15. Light Rail Transit – Extension to Airport (Sacramento Regional Transit)

Attached, you will find a status report for each project under contract with the Authority.

### Explanation of Activities this Quarter and Additional Notes

- Bridge, roadway and electrical design continued in this quarter.
- Coordination continued with Union Pacific Rail Road and Sacramento Regional Transit to relocate the utility conflicts identified in this project.
- Coordination continued with City of Sacramento on sewer line relocation design.
- Caltrans District 3 successfully competed and received State funding from the SB1 Gas/Diesel Tax programs under the Solutions for Congested Corridor Program for construction of this HOV Lanes project last quarter. The project has been selected for an innovative delivery method of Design-Build instead of traditional Caltrans delivery method of Design-Bid-Build. The HOV lanes project is expected to be advertised for Design-Build contract in January 2019 combined with the US 50 Rehabilitation project that has already been funded by State Highway Operation and Protection Program (SHOPP).

- Under Construction
- Completed

### Explanation of Activities this Quarter and Additional Notes

-Sacramento Area Council of Governments (SACOG) is currently funding the design and right-of-way work using the federal Congestion Mitigation and Air Quality (CMAQ) program. The design work was completed in previous quarter. A funding request was approved by STA to advance \$30 million of the future funding to construct the HOV lanes at the same time as the I-5 Rehabilitation project which is funded by State Highway Operation and Protection Program (SHOPP).

-In addition to the Measure A Funds, Caltrans District 3 successfully competed and received State funds from the SB1 Gas/Diesel Tax programs under the Solutions for Congested Corridor Program last quarter. Measure A Funds were presented as the local match under this application.

-This project was advertised this quarter and the bids were opened in August. There is a bid protest from the second low bidder and Caltrans Awards and Legal units are in the process of evaluating the validity of the protest.

### Explanation of Activities this Quarter and Additional Notes

The following Technical Studies were submitted to Caltrans for environmental review:

- Revised Air Quality Study Report-Approved 9/6/2017
- Revised Natural Environment Study-Submitted 5/16/2018
- Visual Impact Assessment-Signature page revisions re-submitted 1/22/2017
- Coordinated with State Parks for Section 4(f) awaiting signature.
- Revised Biological Assessment was submitted to Caltrans on 5/25/2018

In addition to these Technical Studies, SacDOT submitted final revisions to the Historic Property Survey Report/Archaeological Survey Report with the current Native American consultation updates on 6/11/2018.

Sacramento County is acting as the California Environmental Quality Act (CEQA) local lead agency in preparing a joint Environmental Impact Report/Environmental Assessment (EIR/EA) to analyze the environmental affects of the Project, located along US Highway 50 at Hazel Avenue. The federal lead agency in the National Environmental Policy Act (NEPA) document preparation, through delegated authority from the Federal Highway Administration, is the California Department of Transportation (Caltrans).

The Draft EIR/EA and Project Report (PR) were submitted for Caltrans review. Comments were received, and revisions were made to incorporate the comments, and the 2nd administrative draft was sent to Caltrans and the environmental consultant for review. The Draft EIR/EA is scheduled to be released in January 2019.

### Explanation of Activities this Quarter and Additional Notes

Prepared preliminary alignment plans for intersection improvements at Greenback Lane and Chestnut Avenue and also for a roadway segment on Greenback Lane at Main Avenue to the Folsom City Limits.

Public outreach and community input on the proposed alignment will be solicited through public meetings and coordination with the Greenback Lane Orangevale Envisions (GLOVE) community group. This effort is expected to resume in early 2019.

### Explanation of Activities this Quarter and Additional Notes

Hazel Avenue Widening Phase 1, US 50 to Curragh Downs Drive: Construction completed in Spring 2011. (Current Status: Completed)

Hazel Avenue Widening Phase 2, Curragh Downs Drive to Sunset Avenue: Construction Completed in July 2018. (Current Status: Completed)

Hazel Avenue Widening Phase 3, Sunset Avenue to Madison Avenue: The Phase 3 project is currently in the right-of-way acquisition and final design phases of work. Construction is tentatively scheduled to begin in December 2019 with completion in December 2021. (Current Status: Final Design; Right-of-way Acquisition). The right-of-way acquisition is complete on 19 of 34 parcels for the Phase 3 project. For the remaining 15 properties, Resolutions of Necessity, the first step in the eminent domain process, are scheduled to be at the County Board of Supervisors meeting in January/February 2019.

### Explanation of Activities this Quarter and Additional Notes

The project is currently in the environmental review stage for the hybrid alternative. The hybrid alternative consists of widening Madison Avenue to six lanes with some portions of Madison Avenue remaining at four lanes. This alternative is the preferred alternative due to less right-of-way and tree impacts than associated with the six lane project. The traffic study for the hybrid has been completed.

A public outreach and community input process will be conducted as the environmental review stage continues. This public outreach process is expected to move forward in the winter or spring of 2019.

### Explanation of Activities this Quarter and Additional Notes

The project is currently in the preliminary phase of work. Roadway base survey is complete, a preliminary striping plan layout has been prepared, and coordination with utilities and affected agencies is underway to determine potential utility conflicts. Environmental review will be initiated by the end of the year. Preparation of request for proposal for design services of the bridge at Morrison Creek is currently underway.

### Explanation of Activities this Quarter and Additional Notes

Possible construction for a Phase 1 Project at the intersection of Jackson Road at Sunrise Boulevard. This Phase 1 Project proposes to improve the existing intersection by adding capacity and improving operational efficiency. The Phase 1 Project will require coordination with the City of Rancho Cordova, Cordova Hills Development, and the Jackson Corridor Plan. The tentative completion date shown in the "Project Status" section of this report is for the Phase 1 Project.

### Explanation of Activities this Quarter and Additional Notes

Project improvements on this corridor are for a segment of Watt Avenue from Orange Grove Avenue to Roseville Road. The preliminary design for this project will evaluate and coordinate a preferred alternative for a complete streets concept that will include sidewalk infill, Americans With Disabilities Act (ADA) improvements (curb ramps and bus stops), Class II bike lanes, and streetscape enhancements.

The California Environmental Quality Act (CEQA document -Mitigated Negative Declaration) was found to be adequate and complete by the Sacramento County Board of Supervisors on September 25, 2018. Preparation of plat/legal descriptions and right-of-way acquisition activities will now move forward.

### Explanation of Activities this Quarter and Additional Notes

Phase IV of this project is currently under construction. Phase V construction should begin by Q3. The overall project encountered a setback when the construction bids for Phase IV came in higher than expected, which required our staff to change the scope of Phase IV and create a separate locally sidewalk project. No expenses were reported in this quarter, however, construction activities totaled approximately \$173k and will be billed to the next quarter.

### Explanation of Activities this Quarter and Additional Notes

Activities: In the period of July 1 through September 30, activities for the Intermodal project included the following:  
Architectural consultant fees, vendor charges and city management labor for documentation of US Green Building Council LEED Platinum certification continuing through FY19 Q1 (Contract will not be extended past December 31, 2018) This contract also includes Facility way-finding and informational signage, design and procurement.  
Planning for additional bike access to the station from F Street and from the West parking lot to improve bicycle safety and convenience, ongoing through FY19 Q1.  
Overall City Management and Administration Labor for Intermodal projects continuing through FY19 Q1.  
Planning new service starts with transit agencies for new service to station and planning activities for light rail relocation and streetcar continuing through FY19 Q1.  
Security improvements on-going for installation of new video surveillance and access control systems in building common areas continued through FY19 Q1.  
Phase 3 – Site Master Planning in progress, Phase 3 Intermodal planning consultant fees and city staff administrative and management costs, ongoing through FY19 Q1.  
Contract extension has been approved per Sacramento Transportation Authority through June 30, 2019.

### Explanation of Activities this Quarter and Additional Notes

Activities: In July, the City held conducted interviews with the shortlisted consultants to lead the PA&ED phase of work, and has negotiated a contract with the selected consultant that is anticipated to be approved by City Council in October. In the meantime, the City has continued to hold coordination meetings with Caltrans to ensure that the I-5 Richards Boulevard Interchange is optimized with other planned improvements on Interstate 5.

### Notes:

1. STA approved to move the cosumnes remaining funding balance \$1,615,862 to Richards project. However, the fund will not be allocated to Richards project until bond issued. At this time, the \$1,615,862 extra funding from Cosumnes is pending contract.

Explanation of Activities this Quarter and Additional Notes

**SVS LOOP:** \$509,000 Measure A POF funds matching state Prop 1A funds for final design have been transferred instead to the DNA ("Downtown/Natomas/Airport") Environmental Analysis component of the project. The Prop 1A funds are to be backfilled by City of Sacramento funds. SVS Loop construction completion date remains at 2022. No POF funds will be spent on SVS Loop construction.

**DOWNTOWN/NATOMAS/AIRPORT ENVIRONMENTAL ANALYSIS :** \$509,000 POF funds from SVS Loop added to this project component. Continued progress on completing a draft EIS/EIR, expected to be available for internal review late 2018 to early 2019. By summer of 2020, anticipating cooperating and participating agency and FTA review of ADEIS/EIR.

**DECEMBER 13, 2018**

**AGENDA ITEM # 5**

**MEASURE A BUDGET-TO-ACTUAL REPORTS – 1<sup>ST</sup> QUARTER FISCAL YEAR 2019**

Action Requested: Receive and File

Key Staff: Timothy Jones, Chief Financial Officer

---

Each quarter Authority staff prepares analyses summarizing actual to budgeted revenue and expenditures for the Sacramento Transportation Authority's General Fund, SacMetro Freeway Service Patrol, Sacramento Abandoned Vehicle Service Authority and the Administration Fund. The attached reports summarize the financial information through the end of the first quarter of fiscal year 2019 – September 30, 2018.

There are several material variances in the General Fund:

1. Sales tax revenue is higher than expected by \$2.296 million because some revenue collected in the last quarter of fiscal year 2018 was not remitted until the first quarter of fiscal year 2019. The California Department of Tax and Fee Administration implemented a new revenue tracking system that caused a delay in processing some remittances when planned.
2. Interest revenue related to our interest rate swap program came in \$681,527 higher than expected due to increasing interest rates.
3. Capital program expenditures are lower than expected by \$3.984 million because construction bids are coming in much higher than expected, delaying the start of construction on some projects. In particular, Caltrans' I-5 project and Rancho Cordova's Folsom Blvd. project.

AGENDA ITEM # 6

SACRAMENTO ABANDONED VEHICLE ABATEMENT PROGRAM
FY 2019 1ST QUARTER STATUS REPORT

Action Requested: Receive and File

Key Staff: Jennifer Doll, Special Programs Manager

Background Information

A \$1 vehicle registration fee is collected in Sacramento County to fund the Abandoned Vehicle Abatement Program. The Sacramento Abandoned Vehicle Service Authority (SAVSA) funds the program by distributing approximately \$1.1 million per year to the County and member cities within the County based on a formula of population and relative number of abatements.

Discussion

First quarter receipts from the State Controller were \$327,793.94. Member agencies reported a total of 5,078 abandoned vehicle abatements. The formula-based quarterly distribution, claims and payments for each member agency are detailed in the following tables.

Table with 7 columns: DISTRIBUTION, 2018 Population, 50% alloc. based on population, Eligible Reported Abatements, 50% alloc. based on abatements, Total Quarterly Distribution. Rows include Citrus Heights, Elk Grove, Folsom, Galt, Rancho Cordova, Sacramento, Sacramento County, and Totals.

First quarter revenue was reduced by \$5,416.45 for program administration costs, leaving \$324.377.49 available for distribution.

A recent audit revealed that \$155,745.99 should have been withheld from the member agencies in FY 2017 to cover an outstanding total agency fund balance. To rectify that, STA will reduce FY 2019 allocations by the following amounts as determined by the standard distribution formula:

| <b>FY 2017 Agency Fund Balance Adjustment</b> |              |              |              |                |              |                   |
|---|--------------|--------------|--------------|----------------|--------------|-------------------|
| Citrus Heights                                | Elk Grove    | Folsom       | Galt         | Rancho Cordova | Sacramento   | Sacramento County |
| -\$10,418.48                                  | -\$15,697.40 | -\$ 9,308.89 | -\$ 4,676.28 | -\$16,970.60   | -\$59,541.05 | -\$39,133.29      |
| <b>Total -\$155,745.99</b>                    |              |              |              |                |              |                   |

The Cities of Folsom and Galt carry positive cash balances, so the full amounts of their adjustments were deducted this quarter. The other agencies will have 25 percent of their total adjustments deducted from their payments each quarter.

| <b>PAYMENT</b>           | <b>Balance Forward</b> | <b>Quarterly Distribution</b> | <b>FY 2017 Adjustment</b> | <b>Total Available</b> | <b>Claim</b>         | <b>Payment</b>       | <b>Ending Balance</b> |
|--------------------------|------------------------|-------------------------------|---------------------------|------------------------|----------------------|----------------------|-----------------------|
| <b>Citrus Heights</b>    | –                      | \$ 16,877.78                  | – \$ 2,604.62             | \$ 14,273.16           | \$ 17,385.39         | <b>\$ 14,273.16</b>  | –                     |
| <b>Elk Grove</b>         | –                      | \$ 51,190.84                  | –\$ 3,924.35              | \$ 47,266.49           | \$ 106,498.36        | <b>\$ 47,266.49</b>  | –                     |

DECEMBER 13, 2018

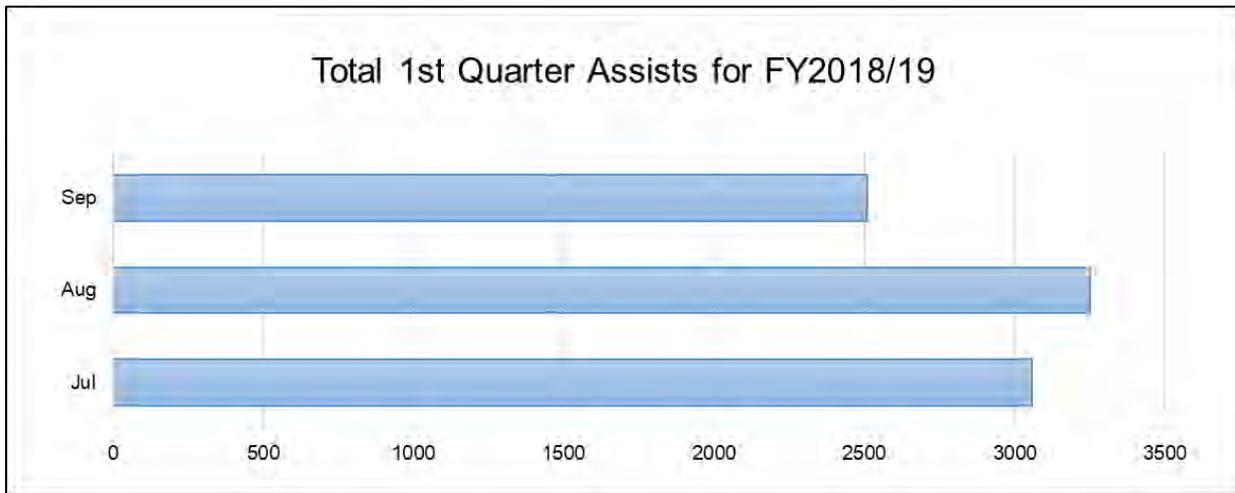

AGENDA ITEM # 7

SACMETRO FREEWAY SERVICE PATROL FY2019 1ST QUARTER STATUS REPORT

Action Requested: Receive and File

Key Staff: Jennifer Doll, Special Programs Manager

SacMetro FSP provided 8,822 assists and 130 motorists completed the online survey during the first quarter of FY 2018/19.

|  Types of Problems                          |  Response Times  |  Service Rating |
|--|---|--|
| In the first quarter, the majority of FSP assists, 75 percent, were related to accidents, mechanical problems, and flat tires. | 71 percent of motorists reported waiting less than 10 minutes before FSP appeared on scene, with 44 percent of those those waiting less than 5 minutes. | Of the 109 motorists who responded to the survey, 100 percent rated the service as 'excellent'.      |

Of the 109 surveys received, 98 included written comments, most expressing thanks to the driver and/or indicating support for the program. Following are a few examples:

- Tavo was great... friendly, courteous, helpful. I'm grateful for the service! Thanks!
- This is worth the taxes that fund it. Thank you for saving my sanity and maybe my life.
- I was really impressed by the service. I'm very glad that there is this service to help everybody in need on the highway. Thank you to all the drivers who risk their lives for others. Great job.
- Paris the driver was super nice and helpful. I will not forget this service for a long time. Thank you FSP.
- So thankful for your help yesterday, you were courteous and professional and kind, and I feel so grateful there is a program like this. I saved hundreds of dollars by not having to pay for a tow truck company to get me off the freeway.
- Excellent service Miguel was very helpful and explained the program in full. I was so glad to see someone for help on 99 hwy.
- Jitendra Gill is an absolute angel! He picked me up just north of Mack Road, and made sure that I was going to safely get home to Fresno. He went out of his way to show kindness and care. What a lovely man! I am happy to have my taxes support such a program, I only hope that it extends further to Fresno and the rest of the state. Bravo State of California, and thank you, Jitendra Gill!!!
- I have to commend the driver who was so very helpful, courteous, friendly, supportive (yes, all of these) and helped me get through a difficult time. Great Service!
- My tow truck driver, James, appeared out of nowhere to rescue me like a knight in shining armor! I was barely out of my car when his truck pulled behind me. He made sure that the others involved, and I were ok, offered to call the CHP, made sure the others and I exchanged information and checked out each car. I was the only one needing a tow, so he opened the door of his truck for me to get in and in no time at all he had my car on his truck and we were on our way!! He was absolutely delightful! I am so grateful for James and this service that I had no idea existed before today! Thank you Sac Metro FSP and JAMES!!!
- Spencer was fantastic. Helpful, friendly, relatable. Worked quickly and kept me updated every step of the way.
- Wow! What a great service! I wasn't even late for work like I thought I would be and the driver Roy was very helpful and friendly. Thank you!

**DECEMBER 13, 2018**

**AGENDA ITEM # 8**

**SACMETRO FREEWAY SERVICE PATROL: QUALIFIED BIDDERS POOL  
AND RELEASE OF REQUEST FOR BIDS**

Action Requested: Authorize Executive Director

Key Staff: Jennifer Doll, Special Programs Manager

---

**Recommendation**

1. Authorize the Executive Director to establish a pool of firms qualified to bid on SacMetro FSP contracts, and
2. Authorize the Executive Director to release a Request for Bids to the pool of qualified bidders.

**Discussion**

On November 13, 2018, STA issued a Request for Qualifications (RFQ) seeking qualifications from firms interested in providing roadside assistance and towing services for the Freeway Service Patrol (FSP). Notices were sent to 31 tow companies in the Sacramento area, of which seven companies had previously requested to be notified and three companies were found through the towing industry conference network. Additionally, the RFQ is prominently featured on the STA website. The original deadline for qualifications was December 17 but due to additional recent interest, the deadline has been extended to January 7, 2019.

Submissions will be reviewed by the FSP Technical Advisory Committee (TAC) consisting of staff from STA, the California Highway Patrol (CHP) and at least one staff member from one of our sister FSP programs in El Dorado and/or Placer Counties between January 8 and 18, 2019. As part of the review, staff will also conduct site visits to confirm RFQ requirements are met.

The sudden termination of the contract for FSP Beats 5 (Interstate 5), 6 (Interstate 80 Across-the-Top) and 7 (Yolo County) last month has forced an accelerated timeline. Staff requests authorization to be granted to the Executive Director to establish the pool of qualified bidders based on the recommendations of the TAC and to issue them a Request for Bids (RFB) for Beats 5, 6, and 7 on January 21, 2019.

Staff will return to the STA Governing Board on February 14, 2019 with a recommendation for the Board to authorize the Executive Director to execute a contract with the lowest responsible bidder.

**DECEMBER 13, 2018**

**AGENDA ITEM # 9**

**REAPPOINTMENT OF INDEPENDENT TAXPAYER OVERSIGHT COMMITTEE MEMBERS**

Action Requested: Reappoint

Key Staff: Timothy Jones, Chief Financial Officer

---

**Recommendation**

Reappoint Independent Taxpayer Oversight Committee (ITOC) members Joan Borucki and Robert Holderness for an additional four-year term.

**Background**

Measure A requires that an ITOC be established pursuant to Exhibit B of the Ordinance which requires the ITOC to be formed with three voting and three ex-officio members. Each voting member serves a four-year term, and may serve up to eight years total.

The ex-officio members are identified as the Governing Board Chair or his/her designee, the Authority's Executive Director, and the County Auditor or his/her designee. Each ex-officio member serves throughout the program.

The voting members are required to be residents of Sacramento County and possess the following professional and/or community credentials:

- One member who is a professional – active or retired – in the field of municipal audit, finance, and/or budgeting with at least five years in a relevant and senior decision-making position in the public or private sector.
- One member who is a licensed civil engineer or trained transportation planner – active or retired – with at least five years of demonstrated experience in the field of transportation in government and/or the private sector.
- One member who is a current or retired manager of major public and/or privately financed development or construction projects, who by training and experience would understand the complexity, costs and implementation issues involved in building large scale infrastructure improvements.

Currently, the unpaid citizen volunteers filling the voting-member positions are Joan Borucki, Beth Tincher, and Robert Holderness respectively.

**Discussion**

Ms. Borucki's first four-year term will expire in December 2018, but she would like to continue serving another four-term term for a total of eight years as allowed under the Ordinance.

In May 2018, your Board appointed Mr. Holderness to fill the voting member position held by Maureen Pascoe-Daly until that time. Ms. Pascoe-Daly was unable to complete her term, so Mr. Holderness completed it on her behalf. The term will expire in December 2018. Prior to May 2018, Mr. Holderness was an ex-officio committee member filling the Governing Board Chair designee position. Mr. Holderness would like to continue as a voting member for a four-year term.

**DECEMBER 13, 2018**

**AGENDA ITEM # 10**

**COMPREHENSIVE ANNUAL FINANCIAL REPORT (CAFR) JUNE 30, 2018**

Action Requested: Receive and File

Presented By: Joan Borucki, Chair, Independent Taxpayer Oversight Committee

Key Staff: Timothy Jones

---

**Recommendation**

1. Receive an oral presentation from the Independent Taxpayer Oversight Committee (ITOC)
2. Receive and file the June 30, 2018 Comprehensive Annual Financial Report (CAFR).

**Background**

Under the New Measure A Ordinance, the Independent Taxpayer's Oversight Committee (ITOC) is charged with supervising annual fiscal audits performed in accordance with generally accepted auditing standards and Government Auditing Standards issued by the Comptroller General of the United States. Using a competitive procurement process, Crowe LLP was engaged to conduct the fiscal year 2018 audit of all expenditures related to sales tax funds, the Sacramento Countywide Transportation Mitigation Fee Program, the Sacramento Abandoned Vehicle Service Authority (SAVSA), and the Freeway Service Patrol Program (FSP). The ITOC reports audit results to the Authority, and recommends any additional audits that it believes may improve the financial operation and integrity of each program's implementation.

**Discussion**

This audit was started in September of this year and completed in time for the ITOC's November 15, 2018 meeting. At that meeting Crowe LLP audit partner, Kathy Lai, walked the ITOC through the statements and noted the following:

1. STA earned an unmodified ("clean") opinion
2. No material weaknesses or significant deficiencies in internal control reported or communicated to Authority management
3. No management letter comments
4. No significant or unusual transactions
5. Accounting estimates/accruals were appropriate
6. No corrected or uncorrected misstatements/auditor adjustments

On December 6, the CAFR was submitted to STA bond partners as required under our indentures.

December 4, 2018

**To the Sacramento Transportation Authority Governing Board  
and Citizens of the County of Sacramento:**

### **Letter of Transmittal**

State law requires that the Sacramento Transportation Authority (Authority) publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States (GAAP) and audited in accordance with generally accepted auditing standards by independent certified public accountants. Pursuant to this requirement, we are pleased to present the Comprehensive Annual Financial Report (CAFR) of the Authority for the fiscal year ended June 30, 2018.

Management assumes responsibility for the completeness and reliability of the information presented in this report based on the Authority's comprehensive framework of internal controls established for this purpose. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Measure A requires that an Independent Taxpayer Oversight Committee (ITOC) supervise fiscal and performance audits regarding the use of all transportation sales tax funds and perform periodic independent reviews to ensure that all Measure A funds are spent in accordance with the provisions in the Ordinance approved by voters. Under the supervision of the ITOC, the Authority engages an independent audit firm to perform annual financial and compliance audits of all Measure A and Sacramento County Abandoned Vehicle Service Authority (SAVSA) funds.

The Authority's current audit firm, Crowe LLP, issued an unmodified opinion on the Authority's financial statements for the year ended June 30, 2018. The independent auditor's report is located at the front of the financial section of this report.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complement this letter of transmittal and should be read in conjunction with it.

### **Profile of the Authority**

The Authority was established in August 1988 under the Local Transportation and Improvement Act, California Public Utilities Code Division 19. The Governing Board of the Authority (Board) consists of sixteen members – five from the Sacramento County Board of Supervisors, five from the Sacramento City Council, one from the Citrus Heights City Council, two from the Elk Grove City Council, one from the Folsom City Council, one from the Rancho Cordova City Council, and one from the Galt City Council who also represents the City of Isleton. The Board is responsible for establishing ordinances, adopting an annual budget, and hiring

and overseeing the Executive Director. The Executive Director is responsible for carrying out the policies and ordinances of the Authority as well as overseeing day-to-day operations and Authority staff consisting of the Chief Financial Officer and the Special Programs Manager.

The Authority serves as the taxing and implementation agency for the voter-approved Measure A Transportation Improvement Program, which imposes a half-cent sales tax to fund transportation operations and improvements. The original 20-year measure (Original Measure A) was approved in 1988 and began in April 1989. In 2004, voters approved a 30-year extension of Original Measure A beginning in April 2009 (Measure A). All sales tax revenue is restricted for public roadway improvements and maintenance, procuring open space mitigation, public transit, air quality, and elderly and handicapped transportation programs. However, 0.75% of the net sales tax revenue is allocated to the Authority for program administration costs.

Measure A also created the Sacramento Countywide Transportation Mitigation Fee Program (SCTMFP). This program imposes uniform transportation mitigation fees on new development in Sacramento County to assist in funding roadway and transit system improvements needed to accommodate projected growth and development.

In addition to the Original and current Measure A programs, the Board administers the Sacramento Metropolitan Freeway Service Patrol program (FSP) and acts concurrently as the Sacramento Abandoned Vehicle Service Authority (SAVSA) over the Sacramento County abandoned vehicle abatement program. SAVSA was established under California Vehicle Code Section 22710 in 1992. The code allows counties to impose a \$1 surcharge on vehicle registration to fund the abatement of abandoned vehicles. Participating jurisdictions include the County of Sacramento and the Cities of Citrus Heights, Elk Grove, Folsom, Galt, Rancho Cordova, and Sacramento. Each participating jurisdiction has adopted an ordinance which establishes procedures for the abatement, removal, and disposal of abandoned vehicles.

FSP was established in 1992 through a Memorandum of Understanding (MOU) with the Department of Transportation (Caltrans), California Highway Patrol (CHP) and the Authority. Additionally, in 2009 the Authority assumed responsibility for administering FSP in Yolo County. Funding for the program is through Caltrans and local match funds from the Capitol Valley Regional Service Authority for Freeways and Expressways (CVR-SAFE). The program consists of a system of roving tow trucks deployed at peak traffic times to quickly assist motorists with stalled vehicles and to remove related hazards from the roadway. This effort, in turn, reduces nonrecurring freeway delays caused by minor accidents, stalled vehicles, and in-lane debris, improving highway safety and reducing emissions by easing highway congestion.

This report includes all funds and jurisdictions that are financially accountable to the Authority. Accountability was determined on the basis of budget adoption, taxing authority, and imposition of will.

## **Local Economy**

The unemployment rate for Sacramento County continues to decrease as the local economy improves. In October 2018, the unemployment rate was 3.4%, a marked improvement over the last year and lower than California and national unemployment rates of 3.9% and 3.6% respectively. Residential and commercial construction activity outpaced the prior year and is forecast to continue growing. Sacramento is more affordable to live in than many neighboring counties; contributing to population growth, which has been at a modest 1 percent growth rate for about a decade. Many governmental agencies are headquartered in Sacramento which provides a steady employment and tax base.

Since the Great Recession, annual sales tax revenue has consistently increased at a moderate rate and is forecast to continue growing for the foreseeable future. Recent revenue projections performed by a third party expert in conjunction with Authority staff indicate that program sales tax revenues, including past actual amounts and forecasts for future amounts, are on target to meet the estimates in the voter-approved Ordinance - \$4.74 billion.

Regardless of future economic conditions, the Authority faces formidable ongoing challenges in terms of providing needed infrastructure funding to support a population and an economy that has outgrown the capacity of its existing infrastructure. However, the regional economy continues to retain many of the fundamental positive attributes that fueled earlier growth, including a large pool of skilled workers, and increasing wealth and education levels.

### **Long Term Financial Planning**

Proactive financial planning is a critical element for the success of the Authority as it looks to the future. Continually reviewing revenues and projecting expenditures ensures that the Authority's expectations are realistic and goals achievable. As the program nears its capital improvements debt capacity and becomes increasingly reliant on pay-as-you-go funding, monitoring program objectives and working closely with Measure A partners to meet those objectives will be an ongoing endeavor.

The Authority annually updates its long-term revenue projections and cash-flows to determine the availability of funding for capital projects programmed in the Measure A Transportation Expenditure Plan. This effort ensures that funding is available when and where needed based on the latest information provided to the Authority by Measure A partner agencies. As needed, Authority staff work with the Authority's financial advisors to identify opportunities to reduce bond program costs and seize opportunities that present themselves as market conditions dictate.

### **Accomplishments**

Over the last year, Authority staff worked diligently to increase transparency and public accountability. Those efforts have led to many new reports and points of public contact including the following:

- Preparation of quarterly budget-to-actual summary reports for each of the programs the Authority administers. These documents are reviewed and discussed during regular public meetings – engaging board members, staff, and the public.
- Reformatted and expanded the budget presentation to provide more information in a user-friendly format. Staff included a robust discussion regarding the Authority's capital program including all voter-approved projects and a 3-year financing plan by project and funding source.
- Received Government Finance Officer Association's (GOFA's) Distinguished Budget Presentation Award for the first time. This award is in recognition that the Authority met the very highest quality standards that reflect both the guidelines established by the National Advisory Council on State and Local Budgeting and the GFOA's best practices on budgeting.

- Developed the use of new capital status reporting templates so that the information we receive from Measure A partners demonstrates in a simpler and more uniform format how Measure A funds were spent and what the public received as a result.
- Built trusting relationships with our partner agencies by keeping clear channels of communication open through sharing information early and often.
- Carefully reviewed administrative overhead costs and took appropriate actions to reduce costs and improve fund balance. As a result, fund balance which was just \$3,000 at the beginning of the year increased to \$664,000 by the end of the fiscal year.
- Closely worked with the Independent Taxpayer Oversight Committee (ITOC). The ITOC regularly engages the Authority's Governing Board regarding work products and other important matters. The ITOC increased their meeting frequency from about once per quarter to nearly monthly.

Additionally, \$7 million in reserve funds held for debt service on the Series 2009C bonds were released to fund capital projects. This effort was successful, in part, because of the Authority's excellent credit ratings and payment history. In May 2018, the Neighborhood Shuttle pilot program was launched as required under the Ordinance. This program will be funded initially by about \$12 million accumulated since the beginning of the Measure A program.

Finally, the Authority has significantly improved data security by initiating cloud-based computer software and information storage. At the same time, a vendor was hired to ensure all electronic devices and data are working properly and securely. The Authority signed a 10-year lease and moved into a new office suite that is more conducive to business and less expensive than the previous space.

In the coming fiscal year, staff will continue to identify and act on improvements in the way we do everyday business. The business environment and transportation industry are continuously on the move – so are we.

### **Awards and Acknowledgements**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Authority for the fiscal year ended June 30, 2017. This was the 23<sup>rd</sup> consecutive year the Authority achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR. This report must satisfy both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current CAFR continues to meet the Certificate of Achievement Program's requirements, and are submitting it to the GFOA to determine its eligibility for its next certification.

The CAFR each year is a collaborative effort by Authority staff and its independent auditors. The undersigned are grateful to all staff for their willingness to expend the effort necessary to ensure the financial information contained herein is accurate and completed within established deadlines.

In closing, without the leadership and the support of the Board, preparation of this report would not have been possible. Its prudent management must be credited for the strength of the Authority's sound fiscal

condition, and its vision ensures that the Sacramento Transportation Authority will be on the move planning for and building a better future for Sacramento County residents and commuters.

Respectfully Submitted,

TIMOTHY JONES

## INDEPENDENT AUDITOR'S REPORT

To the Board of Directors  
Sacramento Transportation Authority  
Sacramento, California

**Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Sacramento Transportation Authority (Authority), as of and for the year ended June 30, 2018 and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

---

(Continued)

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Authority, as of June 30, 2018, and the respective changes in financial position and the respective budgetary comparison for the General Fund and Abandoned Vehicle Special Revenue Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Emphasis of Matter**

As discussed in Note 1 to the financial statements, the Authority implemented the Governmental Accounting Standards Board (GASB) Statement No. 75, "Accounting for Financial Reporting for Postemployment Benefits Other than Pensions". This Statement replaces the requirements of GASB Statements No. 45, "Accounting and Reporting for Employers Post Employment Benefits Other than Pensions", as amended, and GASB Statement No. 57, "OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans." Note disclosures and required supplementary information requirements about OPEB are also discussed. Our opinion is not modified with respect to this matter.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that management's discussion and analysis on pages 4 to 12, Schedule of Proportionate Share of the Net Pension Liability Miscellaneous Plan, Schedule of Contributions to the Pension Plan, and Schedule of Changes in the Total OPEB Liability and Related Ratios on pages 42 to 44 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Supplementary Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The introductory section, Combining Statement of Changes in Assets and Liabilities – All Agency Funds and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Combining Statement of Changes in Assets and Liabilities – All Agency Funds is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining Statement of Changes in Assets and Liabilities – All Agency Funds are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

---

(Continued)

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 4, 2018 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

## **MANAGEMENT DISCUSSION AND ANALYSIS**

**SACRAMENTO TRANSPORTATION AUTHORITY  
MANAGEMENT’S DISCUSSION AND ANALYSIS  
YEAR ENDED JUNE 30, 2018**

As management of the Sacramento Transportation Authority (STA) and the Sacramento Abandoned Vehicle Service Authority (SAVSA), collectively the Authority, we offer readers the Authority’s financial statements and this narrative overview and analysis of the financial activities of the Authority for the fiscal year ended June 30, 2018. We encourage readers to consider the information presented here in conjunction with additional information furnished in the transmittal letter and financial statements, which are included in this report.

**Financial Highlights**

- Sales tax revenue increased to \$119.2 million from \$116.9 million (2.0%) over the prior year; however, sales tax revenue was \$3.5 million short of the forecasted amount in the final amended budget. The shortage was caused when the California Department of Tax and Fee Administration (CDTFA) changed its internal processes and implemented a new revenue tracking system, which delayed processing fiscal year (FY) 2017-18 fourth quarter sales tax returns. As such, CDTFA notified the Authority that some fourth quarter sales tax revenue would be remitted beginning the first quarter of FY 2018-19. CDTFA is unable to determine what portion of the sales tax revenue remitted in FY 2018-19 is attributable to FY 2017-18; therefore, Authority staff did not accrue the additional sales tax revenue.
- Expenses decreased slightly to \$128.8 million from \$129.8 million in the prior year. Interest on long-term debt increased about \$1.4 million over the prior year offset by a \$2.4 million decrease in expenditures for Measure A, the Sacramento Countywide Transportation Mitigation Fee Program (SCTMFP), SAVSA, and the Sacramento Metropolitan Freeway Service Patrol Program (FSP).
- Net position is a negative \$320.9 million (deficit). The deficit decreased by \$4.8 million (1.5%) when compared to the prior year, in part, because the Authority made a \$3.6 million principal payment on its Series 2012 bonds. The deficit will continue since the Authority reports debt associated with capital projects reported as assets in the financial statements of the agencies constructing them.

**Overview of the Financial Statements**

This discussion and analysis serves as an introduction to the Authority’s basic financial statements, which are comprised of three components; government-wide financial statements, fund financial statements, and notes to the financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements.

***Government-wide Financial Statements***

The *government-wide financial statements* provide readers with a broad overview of the Authority’s finances, similar to a private sector business

The *statement of net position* presents information on all of the Authority's assets, liabilities, and deferred outflows/inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating.

The *statement of activities* presents information showing how the Authority's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements report the functions of the Authority principally supported by sales tax revenue and mitigation fees. The governmental activities of the Authority include Measure A formulaic allocations, capital program costs, FSP and SAVSA services, and general administration.

### ***Fund Financial Statements***

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting ensures and demonstrates compliance with finance-related legal requirements.

**Governmental funds** account for essentially the same functions reported as governmental activities in the government-wide financial statements; however, governmental fund financial statements focus on near-term inflows/outflows of spendable resources and on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Since the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for the governmental funds with similar information presented for governmental activities in the government-wide financial statements. As a result, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and government-wide financial information.

The Authority's governmental fund balance sheet and statement of revenues, expenditures, and changes in fund balance include three separate funds - the General Fund, Special Revenue Fund, and Debt Service Fund.

The Authority adopts an annual budget for the General Fund, Special Revenue, and Debt Service funds. A budgetary comparison schedule for the General Fund and SAVSA are part of the basic financial statements.

**Fiduciary funds** account for assets held in a trustee or agency capacity for others and therefore cannot support the Authority's own programs. Accounting methods for fiduciary and proprietary funds are similar, except for agency funds, which have more limited accounting and financial statements because of their purely custodial nature.

**Notes to the Basic Financial Statements** provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

### Government-wide Financial Analysis

Within the *statement of net position*, the most significant change was a \$19.4 million decrease in *deferred outflows of resources* mainly related to the hedging derivatives' fair value; however, there is a corresponding decrease in non-current liabilities resulting in a zero net impact on the Authority's net position. Annually, an independent third party estimates the market rate cost to exit the three forward interest rate swaps (fixed rate) to hedge the variable rate interest rate risk associated with the Series 2009 Measure A Sales Tax Revenue Bonds. Currently, interest rates are rising, which in the Authority's case, decreases the difference between the variable and fixed bond interest rates and in turn decreases the fair value of the hedging derivatives.

- Current and other assets and current liabilities decreased by \$3.6 million and \$4.2 million respectively. The decrease is caused in part by decreased sales tax accruals and the associated expenses that are accrued since most of the revenue is passed through to the Authority's Measure A partners.
- Non-current liabilities decreased a total of \$23.7 million. In addition to the change in value for the hedging derivatives, a principal payment for \$3.6 million toward the Series 2012 bonds reduced outstanding bond debt and unamortized bond premium was reduced by about \$750,000.

| Total net position (deficit)               | <u>\$ (320,857,330)</u> | <u>\$ (325,675,209)</u> | <u>\$ 4,817,879</u>    | <u>1.5%</u>   |

The majority of the Authority's deficit net position represents debt issued to fund capital projects constructed by other local agencies and reported in their financial statements. The Authority is a pass through agency that exists to fund projects, not build them.

Within the *Statement of Activities*, the most significant change was in General Revenue. This variance was previously explained in the financial highlights section of this report. The remaining variances are explained by the following:

- Measure A expenditures decreased by \$1.6 million. Although ongoing program allocations were roughly \$2 million higher in FY 2017-18 than the prior year, this was offset by reduced capital project costs of \$3.6 million in FY 2017-18.
- Debt service expenses increased by \$1.4 million. The variance is attributable to increased interest costs for the Authority's variable rate bonds including supporting liquidity facilities and weekly remarketing activities.
- The "other" expenses are attributed to FSP and the Authority's administration costs that decreased over \$490,000 in FY 2017-18. Administration costs decreased by about \$350,000, primarily in the areas of salaries and benefits when staff count was reduced from 4 to 3 at the beginning of the fiscal year, and reduced costs for professional services. Additionally, costs for FSP decreased by about \$140,000 when professional services and communications costs were less than expected.

| <b>SACRAMENTO TRANSPORTATION AUTHORITY</b> |                        |                        |                        |               |

| Restatement of beginning net position      | (155,807)              | -                      | (155,807)              | (100.0%)      |
| Net position (deficit) - ending            | <u>\$(320,857,330)</u> | <u>\$(325,675,209)</u> | <u>\$ 4,817,879</u>    | <u>1.5%</u>   |

Because of the variances explained above, the Authority's deficit net position decreased by \$4.8 million. This trend is expected to continue unless more debt is issued in the future.

## Governmental Funds Financial Analysis

The focus of the Authority's funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Authority's financing requirements.

As of June 30, 2018, the Authority's governmental funds reported combined fund balances of \$54.8 million, a slight increase from \$54.2 million in the prior year.

\* Sacramento Abandoned Vehicle Service Authority

All fund balances are restricted for specific purposes with exception of the amount reported in the general fund for program administration - \$664,031 as of June 30, 2018. The general fund balance will decrease in FY 2018-19 as the Authority increases spending on its capital program using pay-as-you-go money.

*General Fund* – This fund reports activity for the Measure A program, the Sacramento Countywide Transportation Mitigation Fee Program (SCTMFP), and the Sacramento Metropolitan Freeway Service Patrol Program (FSP). The general fund ended the fiscal year with a fund balance of \$47.7 million, similar to the prior year.

- Cash and investments increased \$4.7 million because sales tax revenue in excess of debt service costs and the release of \$7 million from the reserve fund for debt service on the Series 2009C bonds was greater than reimbursable capital project claims.
- Due From Other Governments decreased \$1.6 million because sales tax revenue accruals for the fourth quarter were \$2.9 million less than expected offset by increased revenue accruals for SCTMFP of \$878,000 and FSP in the amount of \$376,000.
- Restricted cash and investments decreased by \$7 million in the current year because the Authority's strong credit rating allowed it to negotiate the release of reserve funds held for debt service on its Series 2009C bonds. The funds increased the cash and investment account which is used to fund capital projects.
- Due to Other Governments decreased by \$3.9 million in the current year. There are two reasons; (1) since sales tax revenue was lower than expected, the allocations of that revenue to Measure A partner agencies are lower as well, decreasing the associated liability by \$2.9 million, (2) capital project reimbursement claims were roughly \$1 million less than the prior year.
- Measure A and SCTMFP fund balances reported large variances primarily because of a \$13.2 million *intrafund* transfer. In September 2017, the Authority reimbursed the SCTMFP fund (a subfund of the General Fund) with Measure A funds for past expenditures

it incurred while Authority staff assessed capital project cash flows. The remaining variance was caused when more Measure A funds than SCTMFP funds were used to reimburse capital project claims for the remainder of the fiscal year.

### General Fund Budgetary Highlights

*Revenue* – Although actual sales tax revenue for FY 2017-18 increased by \$2.3 million (2.0%) over FY 2016-17, it was \$3.5 million (2.9%) less than expected as previously explained in the financial highlights section. In contrast, SCTMFP revenue was \$1.6 million higher (21.3%) than expected because construction activity that generates the fee has continued at a robust pace. Interest income (use of money and property) was \$1.5 million higher (50.5%) than budgeted because interest rate swap revenue received on the Authority’s bond debt increased with rising interest rates which also increased interest income on the fund balance accumulated for bond program principal payments.

*Expenditures* - Intergovernmental expenditures were \$5.6 million (5.2%) less than budgeted for two reasons; (1) about \$2.9 million less was passed through to Measure A partner agencies

because sales tax revenues were less than expected, and (2) several capital projects required less funding than the agencies building them originally projected.

| Fund Balance End of Year                   | 44,389,371              | 47,691,937          | 3,302,566              | 6.9%         |

*Other Financing Sources (Uses)* – Actual expenditures were higher than budgeted by \$2.5 million. These expenditures are for debt service. When budgeting for the debt service costs, staff nets the interest income (use of money and property) against the transfers out. Since roughly \$2.5 million in interest income is from the Authority’s interest rate swap partners, the net debt service is about \$19.9 million, which materially agrees with the budgeted amount.

### Long-term Debt

In October 2009, the Authority issued \$318.3 million in variable rate Sales Tax Revenue Bonds. The bonds issued were in three Series – 2009A, 2009B, and 2009C. Subsequently, Series 2014A and 2015A bonds refunded Series 2009A and 2009B bonds respectively. In July 2012, the Authority issued an additional \$53.4 million in fixed-rate Sales Tax Revenue Bonds to accelerate transportation construction projects. The remaining principal amount in the table below for the Series 2012 bonds reflects principal payments made in FY 2016-17 and FY 2017-18. Below is a summary of the Authority’s bond portfolio as of June 30, 2018.

\* Variable Rate Demand Bond

\*\* Floating Rate Note

The Series 2009C bonds are variable-rate with a weekly interest rate reset. The bonds are supported by a liquidity facility in the form of a standby bond purchase agreement (SBPA) provided by US Bank and due to expire in December 2020. The Series 2009C bondholders have the right to tender the bonds weekly. Upon the tender, the remarketing agent attempts to remarket the bonds. If the remarketing is unsuccessful, the Trustee will draw upon the SBPA to purchase the bonds and the bonds will enter into a bank bond period in which they accrue interest. These highly rated bonds have always been remarketable. US Bank agrees to provide liquidity to the bondholders in exchange for a commitment fee calculated as a percentage of the bank commitment amounts.

In September 2014, the Authority refunded \$106.1 million in Series 2009A bonds with Series 2014A variable rate Sales Tax Revenue Refunding bonds to release \$8.2 million held in a reserve fund for debt service. This money funded capital projects and paid for issuance costs. The Series 2014A bonds were directly purchased by Wells Fargo and do not require a separate liquidity facility or any credit enhancement. Wells Fargo is paid interest on the bonds based on 67% of 1-month London Interbank Offered Rate (LIBOR), plus a fixed spread. The direct purchase agreement is due to expire in August 2020. The Authority retained the interest rate swaps.

In March 2015, the Authority refunded \$106.1 million in Series 2009B bonds with Series 2015A variable rate Sales Tax Revenue Refunding bonds to release \$10.3 million held in a reserve fund for debt service. This money funded capital projects and paid issuance costs. Similar to the Series 2009C bonds described above, these bonds require a liquidity facility in the form of an SBPA. Sumitomo Mitsui Banking Corporation holds the SBPA, which is due to expire in May 2023. These bonds have always been remarketable. The Authority retained the interest rate swaps.

### **Economic Indicators**

Since Sacramento is California's capital city, it has a high concentration of government jobs. According to an October 2018 report by the California Employment Development Department, government jobs in the four-county Sacramento region comprise 24% of the total labor force. The unemployment rate continued to decrease over the last year to 3.4% in September 2018, which is lower than the unemployment rate of 3.9% for California and 3.6% for the nation. The largest employment gains over the last year were in the sectors of trade, transportation, and utilities, followed by educational and health services, and government. No sector experienced any notable losses. Total employment increased by 11,100 to 993,900 (1.1%) in September 2018 from 982,800 one year ago. Population growth is one of the factors expected to drive up taxable sales by 5.0%

in FY 2018-19 to \$26.2 billion as compared to \$24.9 billion in FY 2017-18. Likewise, the Authority's adopted budget for FY 2018-19 forecasts \$129.4 million in sales tax revenue, which is 8.5% higher than the actual prior year revenue.

### **Contacting the Authority's Management**

This financial report provides a general overview of the Authority's finances by showing the Authority's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Chief Financial Officer at 801 12<sup>th</sup> Street Floor 5, Sacramento, California 95814-2947. This report is available on the Authority's website at [www.sacta.org](http://www.sacta.org).

SACRAMENTO TRANSPORTATION AUTHORITY  
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET  
TO THE STATEMENT OF NET POSITION  
June 30, 2018

---

Total fund balances - governmental funds \$ 54,775,972

Amounts reported for the governmental activities in the statement of net position are different because:

Long-term liabilities, including premium and hedging derivatives, are not due and payable in the current period and therefore are not reported as liabilities in the governmental funds.

|   |               |               |
|---|---------------|---------------|
| Bonds, including premiums and hedging derivatives | (440,165,196) |               |
| Fair value of hedging derivatives                 | 68,691,578    | (371,473,618) |

Net Pension liability and Total OPEB Liability are not due and payable in the current period and are not reported in the fund statements.

|                               |             |           |
|-------------------------------|-------------|-----------|
| Deferred outflow of resources | 312,128     |           |
| Deferred inflow of resources  | (57,438)    |           |
| Net Pension liability         | (1,044,537) |           |
| Total OPEB liability          | (162,279)   | (952,126) |

Interest payable is not due and payable in the current period and therefore is not reported in the fund statements. (3,092,035)

Compensated absences are not due and payable in the current period and therefore are not reported in the fund statements. (115,523)

Total net position - governmental activities \$ (320,857,330)

See accompanying notes to financial statements.

SACRAMENTO TRANSPORTATION AUTHORITY  
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
AND CHANGES IN FUND BALANCES  
OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES  
June 30, 2018

---

|   |            |
|---|------------|
| Net change in fund balances - total governmental<br>Funds | \$ 537,360 |
|---|------------|

Amounts reported for governmental activities in the  
statement of activities are different because:

Repayment of principal is an expenditure in the  
governmental funds, but the repayment reduces  
long-term liabilities in the statement of net position.  
These are the amounts by which repayments exceed  
proceeds.

|                    |           |
|--------------------|-----------|
| Principal payments | 3,590,000 |
|--------------------|-----------|

Some expenses reported in the statement of activities do  
not require the use of current financial resources and  
therefore are not expenditures in the governmental funds.

|                                |                |
|--------------------------------|----------------|
| Pension expense                | (103,928)      |
| OPEB expense                   | (14,287)       |
| Change in compensated absences | (16,532)       |
| Change in interest payable     | 225,997        |
| Bond premium amortization      | <u>755,076</u> |

|   |                     |
|---|---------------------|
| Change in net position of governmental activities | <u>\$ 4,973,686</u> |
|---|---------------------|

SACRAMENTO TRANSPORTATION AUTHORITY  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

---

**NOTE 1 - REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the Sacramento Transportation Authority (Authority) and the Sacramento Abandoned Vehicle Service Authority (SAVSA) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

**Organizations:** In August 1988, the Authority was established under the Local Transportation and Improvement Act, California Public Utilities Code Division 19. In November 1988, Sacramento County voters approved an ordinance (Original Measure A) enacted by the Authority's Governing Board (Board) imposing a retail transactions and use tax (sales tax) increase throughout the County at a maximum rate of 0.5% for a period of 20 years. In November 2004, taxpayers approved a 30-year extension of the sales tax beginning in April 2009 (Measure A).

In 1992, SAVSA was established as a separate legal entity under California Vehicle Code Section 22710. The code establishes a \$1 vehicle registration fee to be used for the abatement of abandoned vehicles for counties electing to impose the fee. The County Board of Supervisors, by a two-thirds vote, and the City Councils of a majority of the cities within the County having a majority of the incorporated population, adopted resolutions providing for the establishment of SAVSA. SAVSA reimburses the County, and the Cities of Sacramento, Galt, Folsom, Elk Grove, Citrus Heights, and Rancho Cordova according to the Sacramento Abandoned Vehicle Abatement Plan. SAVSA is considered a blended component unit of the Authority as the board and management of the Authority are also the board of SAVSA. SAVSA is presented as the Abandoned Vehicle Special Revenue Fund.

In 1992, the Authority entered into a Memorandum of Understanding (MOU) with the Department of Transportation (Caltrans) and the California Highway Patrol (CHP) to administer the Sacramento Metropolitan Freeway Service Patrol Program (FSP). In 2009, the Authority began administering the FSP program for Yolo County. Funding for the program is provided by a state grant from Caltrans and local matching funds from the Capitol Valley Regional Service Authority for Freeways & Expressways (CVR-SAFE).

The Authority's Board consists of sixteen-members – five from the Sacramento County Board of Supervisors, five from the Sacramento City Council, one from the Citrus Heights City Council, two from the Elk Grove City Council, one from the Folsom City Council, one from the Galt City Council, and one from the Rancho Cordova City Council. Under Measure A, the Authority distributes sales tax proceeds as prescribed by the ordinance to the County of Sacramento, the Cities of Sacramento, Folsom, Galt, Isleton, Citrus Heights, Rancho Cordova, and Elk Grove, the Sacramento Regional Transit District, Paratransit, Inc., the Sacramento Metropolitan Air Quality Management District, and the Neighborhood Shuttle Program.

**Basis of Presentation:** Government-wide financial statements (the Statement of Net Position and the Statement of Activities) provide information on all of the nonfiduciary activities of the Authority.

The Statement of Net Position reports all financial resources of the Authority as a whole in a format in which assets and deferred outflows of resources equal liabilities and deferred inflows of resources, plus net position. The Statement of Activities demonstrates the degree to which the expenses of a given function are offset by program revenues. Sales tax and interest earnings are not program related, but reported as general revenues. Fund financial statements are provided for governmental and fiduciary funds. A fund is a fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions.

SACRAMENTO TRANSPORTATION AUTHORITY  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

---

**NOTE 1 - REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

The Authority maintains the minimum number of funds consistent with legal and managerial requirements. Fiduciary funds, although excluded from the government-wide statements, are included in the fund financial statements. Major governmental funds are reported in separate columns in the fund financial statements.

Governmental fund types are used to account for activities primarily supported by taxes, grants, and similar revenue sources.

The Authority reports the following major governmental funds:

*General Fund* – The General Fund is the main operating fund of the Authority. It accounts for transactions related to resources obtained and used for those services, including FSP, which need not be accounted for in another fund.

*Abandoned Vehicle Special Revenue Fund* – Reports the vehicle registration fee revenue and related expenditures.

*Debt Service Fund* – Reports the debt service on the Authority's Measure A Sales Tax Revenue Bonds.

The Authority also reports the following fund type:

*Fiduciary Funds* – Reports the assets and liabilities for unspent Original Measure A funds as well as New Measure A funds for programs not yet started but held by the Authority in a fiduciary capacity, as Agency Funds. The financial activities of these funds are excluded from the government-wide financial statements but are presented in separate Fiduciary Fund financial statements.

Basis of Accounting: The government-wide financial statements use the economic resources measurement focus and the full accrual basis of accounting. Revenues are recorded when earned and expenses at the time liabilities are incurred, regardless of when the related cash flows take place. The Fiduciary Fund statements do not involve the results of operations and do not use a measurement basis.

Governmental funds use the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The Authority records revenue sources when earned or when due, provided they are measurable and available within 90-days after the end of the fiscal year. Those revenues susceptible to accrual at both the government-wide and fund level are sales taxes, mitigation fees, vehicle license fees and interest revenue. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. Proceeds of governmental long-term debt are reported as other financing sources.

Non-exchange transactions, in which the Authority gives or receives value without directly receiving or giving equal value in exchange, include taxes, grants, entitlements, and donations. On the accrual basis, revenue from taxes is recognized in the fiscal year for which the taxes are levied or assessed. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. Certain indirect costs are included in program expenses reported for individual functions and activities.

SACRAMENTO TRANSPORTATION AUTHORITY  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

---

**NOTE 1 - REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Grant revenues are recognized in the fiscal year in which all eligibility requirements are met. Under the terms of grant agreements, the Authority may fund certain programs with a combination of cost-reimbursement grants and general revenues. Thus, funds included in restricted and unrestricted net position may be available to finance program expenditures. The Authority's policy is to first apply restricted grant resources to such programs, followed by general revenues if necessary.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are exchange or exchange-like transactions between functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Budgetary Principles: As required under California Public Utility Code Section 180105, the Authority prepares and legally adopts an operating budget each fiscal year. Operating budgets are adopted for the governmental fund types on the modified accrual basis of accounting. Budgetary control and the legal level of control are at the program level. Significant amendments, appropriation transfers between programs and transfers from contingencies must be approved by the Authority's Board.

Restricted Assets: Certain proceeds from long-term debt are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants. Restricted cash includes the reserve accounts used to report resources set aside to make up potential future deficiencies in the bond's debt service. Restricted cash may also include unspent bond proceeds used to fund projects.

Capital Assets: Capital assets for governmental fund types are not capitalized in the funds used to acquire or construct them. Capital acquisitions are reflected as expenditures in the governmental fund, and the related assets are reported in the government-wide financial statements. It is the Authority's policy to capitalize furniture and equipment exceeding \$5,000. The Authority has no capital assets that exceed the capitalization threshold.

Compensated Absences: The Authority compensates employees for unused vacation pay, up to a maximum of 400 hours, upon termination. It also pays one-half of unused sick leave at the time of retirement, up to a maximum of 500 hours pay, or applies any portion of sick leave toward retirement credit. The Authority has accrued sick leave to the extent it is expected to be paid out.

All vacation pay is accrued when earned by the employee in the government-wide financial statements. A liability for these amounts is recorded in the government funds only if they have matured, for example, as a result of employee resignations and retirements and is currently payable. The General Fund is used to liquidate compensated absences.

Long-Term Debt: In the government-wide financial statements, long-term debt is recorded as a liability in the applicable governmental activities statement of net position. Bond premiums and discounts are amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of applicable bond premiums or discounts. Bond issuance costs are recognized as an expense in the period incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts incurred during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

---

**NOTE 1 - REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

Pensions: For purposes of measuring the net pension liability and deferred outflow/inflow of resources related to pensions, and pension expense, information about the fiduciary net position of the California Public Employee's Retirement System (CalPERS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The net pension liability is liquidated by the Authority's General Fund.

Fund Balance Classification:

*Net Position* - The government-wide financial statement includes the following categories of net position:

1. Restricted net position - This category presents external restrictions imposed by creditors, grantors, contributors or laws and regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
2. Unrestricted net position – any amount that is not restricted.

*Fund Balance* - In the fund financial statements, fund balance amounts are reported based on the Authority's constraints on the use of funds.

1. Nonspendable fund balances - are not expected to be converted to cash within the next operating cycle and are typically comprised of prepaid items. As of June 30, 2018, the Authority had no nonspendable fund balances.
2. Restricted fund balances - are subject to external restrictions imposed by creditors, grantors, contributors, laws, regulations, or enabling legislation which requires the resources to be used only for a specific purpose.
3. Committed fund balances - are subject to constraints imposed by formal action of the Authority's Board which may be altered only by formal action of the Authority's Board consisting of an ordinance or resolution. As of June 30, 2018, the Authority had no committed fund balances.
4. Assigned fund balances - are amounts constrained by the Authority's intent to be used for a specific purpose, but are neither restricted nor committed. Intent is expressed by the Authority's Board or management and may be changed at their discretion. As of June 30, 2018, the Authority had no assigned fund balances.
5. Unassigned - is the residual amount of the General Fund not included in the four classifications described above. In other governmental funds in which expenditures incurred for specific purposes exceeded amounts restricted, committed, or assigned to those purposes, a negative unassigned fund balance is reported. This includes the residual general fund balance and residual fund deficits, if any, of other governmental funds. The Authority typically spends resources in the following order when an expenditure is incurred: restricted, committed, assigned, and unassigned.

Insurance: The Authority provides employees with commercial worker's compensation insurance. In addition, the Authority purchases commercial insurance for general liability claims. At June 30, 2018, there were no claims outstanding. There were no reductions in coverage during the year. The amount of settlements did not exceed insurance coverage for each of the past three fiscal years.

---

**NOTE 1 - REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

New Accounting Pronouncements: In June 2015, the GASB issued GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions. This Statement improves accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. The provisions in GASB Statement No. 75 are effective for fiscal years beginning after June 15, 2017. Based on the implementation of Statement No. 75, the Authority's July 1, 2017 governmental activities net position was restated by \$155,807 because of the recognition of the net OPEB liability.

**NOTE 2 - CASH AND INVESTMENTS**

Cash and investments as of June 30, 2018 are classified in the accompanying financial statements as follows:

|                                 |                      |
|---------------------------------|----------------------|
| Governmental activities:        |                      |
| Cash and investments            | \$ 35,649,106        |
| Restricted cash and investments | 12,279,251           |
| Agency funds:                   |                      |
| Cash and investments            | <u>28,095,817</u>    |
| Total cash and investments      | <u>\$ 76,024,174</u> |

As of June 30, 2018, the Authority's cash and investments consisted of the following:

|   |                      |
|---|----------------------|
| Deposits:   |                      |
| Deposits with financial institutions                | \$ 1,093,209         |
| Pooled Funds:                                       |                      |
| County Treasury                                     | 52,870,071           |
| Local Agency Investment Fund                        | 9,781,643            |
| CAMP pool   | <u>1,059,009</u>     |
| Total pooled funds                                  | <u>63,710,723</u>    |
| Investments:  |                      |
| Investments with fiscal agent                       |                      |
| Money market mutual fund (governmental obligations) | 6,923,116            |
| U.S. Treasury securities                            | <u>4,297,126</u>     |
| Total investments                                   | <u>11,220,242</u>    |
| Total cash and investments                          | <u>\$ 76,024,174</u> |

---

SACRAMENTO TRANSPORTATION AUTHORITY  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

**NOTE 2 - CASH AND INVESTMENTS (Continued)**

Investment Policy: Investments are stated at fair value. California statutes authorize public agencies to invest idle or surplus funds in a variety of credit instruments as provided for in California Government Code, Section 53600, and Chapter 4 - Financial Affairs. The table below identifies the investment types that are authorized for the Authority by the California Government Code (or the Authority's investment policy, where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk. During the year ended June 30, 2018, the Authority's permissible investments included the following instruments:

| <u>Authorized<br/>Investment Type</u>         | <u>Maximum<br/>Maturity</u> | <u>Maximum % or<br/>Amount of the<br/>Portfolio</u> |
|---|-----------------------------|---|
| US Treasury Bonds/Notes/Bills                 | 5 years                     | 100%  |
| Bonds issued by local agencies                | 5 years                     | 80%   |
| Registered State Warrants and Municipal Notes | 5 years                     | 80%   |
| Bankers Acceptances                           | 180 days                    | 40%   |
| Commercial Paper                              | 270 days                    | 40%   |

Investments Authorized by Debt Agreements: Investment of debt proceeds held by the bond trustee is governed by the provisions of the debt agreements, rather than the general provisions of the California Government Code or the Authority's investment policy. The 2009, 2012, 2014A and 2015A Measure A Sales Tax Revenue Bonds debt agreements contain certain provisions that address interest rate risk and credit risk, but not concentration of credit risk.

SACRAMENTO TRANSPORTATION AUTHORITY  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

---

**NOTE 2 - CASH AND INVESTMENTS** (Continued)

Investment in County Treasury: The Authority's investments in the Sacramento County pooled investment funds are managed by the Sacramento County Treasurer and stated at fair value or amortized cost, which approximates fair value. The total amount invested by all public agencies as of June 30, 2018 was \$4 billion. The Authority's share of the pool is stated at market value in the Authority's financial statement. Sacramento County does not invest in any derivative financial products directly. The Sacramento County Treasury Investment Oversight Committee (Committee) oversees the County's cash and investment pool. The Committee consists of ten members as required by State law. The value of pooled shares that may be withdrawn from the County is determined on an amortized cost basis, which is different than the fair value of the Authority's position in the pool.

Investment in LAIF: Local Agency Investment Fund (LAIF) is a special fund of the California State Treasury through which local governments may invest idle cash. The total fair value amount invested by all public agencies in LAIF is \$22.54 billion. The fund is managed by the State Treasurer. No amounts are invested in derivative financial products. The Local Investment Advisory Board oversees the LAIF. The Board consists of five members as designated by California State Statute. The fair value of the Authority's investment in this pool is reported in the accompanying financial statements based upon the Authority's pro-rata share of the fair value of the entire pool. There are no restrictions or limitations on withdrawals of Authority funds from LAIF.

Investment in CAMP: California Asset Management Program (CAMP) was created under the provisions of the California Joint Exercise of Powers Act to provide professional investment management services and allows the participants to combine the use of a money market portfolio with an individually managed portfolio. CAMP is governed by a board of seven trustees, all of whom are officials or employees of public agencies. The money market portfolio offers daily liquidity and is rated AAAM by Standard and Poor. To maintain the AAAM rating, the portfolio's weighted average maturity may not exceed 70 days.

Interest Rate Risk: Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. In general, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. As of June 30, 2018, the weighted average maturity of the investments contained in LAIF, the County Treasury, CAMP, and mutual money market funds is approximately 193, 309, 35, and 23 days, respectively. The maturity dates of the U.S. Treasury Securities are within 15 months.

Credit Risk: Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Neither LAIF or the County Pool is rated by a nationally recognized statistical rating organization. The Money Market Mutual Fund is rated AAAM by Standard and Poor's. The U.S. Treasury Securities are rated AA+.

Custodial Credit Risk: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code and the Authority's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure public agency deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits. At June 30, 2018, the carrying amount of the

---

SACRAMENTO TRANSPORTATION AUTHORITY  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 June 30, 2018

**NOTE 2 - CASH AND INVESTMENTS** (Continued)

Authority's deposits and the balance in financial institutions was \$1,093,209, of which \$250,000 was covered by federal depository insurance and \$843,209 was covered by the pledging financial institution with assets held in a common-pool for the Authority and other governmental agencies.

Fair Value of Financial Instruments: The following methods and assumptions were used by the Authority to estimate the fair value of its financial instruments as of June 30, 2018.

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

*Level 1* – Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

*Level 2* – Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable can be corroborated by observable market data.

*Level 3* – Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or a liability.

The fair values of U.S. Treasury Notes and money market funds that are readily marketable are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The Authority reports the following recurring fair value measurements as of June 30, 2018:

|   |                      | <u>Fair Value Measurements Using</u> |                  |                  |

**NOTE 3 - PENSION PLAN**

*General Information About the Plans*

Plan Description: All qualified permanent and probationary employees are eligible to participate in the Authority's cost-sharing multiple employer defined benefit pension plans administered by the California Public Employees' Retirement System (CalPERS). The Authority has the following cost-sharing rate plans:

- Miscellaneous Plan
- PEPRM Miscellaneous Plan

Benefit provisions under the Plans are established by State statute and Board resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website at [www.calpers.ca.gov](http://www.calpers.ca.gov).

Benefits Provided: CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 (52 for PEPRM Miscellaneous Plan) with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the 1959 Survivor Benefit level 4, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The Plan's provisions and benefits in effect at June 30, 2018, are summarized as follows:

| <u>Hire Date</u>                                  | Miscellaneous<br>Prior to<br>January 1,<br><u>2013</u> | PERPA<br>Miscellaneous<br>On or after<br>January 1,<br><u>2013</u> |
|---|--|--|
| Benefit formula (at full retirement)              | 2.5% @ 55  | 2.0% @ 62  |
| Benefit vesting schedule                          | 5 years service  | 5 years service  |
| Benefit payments                                  | monthly for life                                       | monthly for life   |
| Retirement age                                    | 50-55  | 52-67  |
| Monthly benefits, as a % of eligible compensation | 2.0% to 2.5%   | 1.0% to 2.5%   |
| Required employee contribution rates              | 8.00%  | 6.25%  |
| Required employer contribution rates              | 9.539%   | 6.533%   |

In addition to the contribution rate above, the Authority was also required to make a payment of \$59,993 towards its unfunded actuarial liability during the fiscal year ended June 30, 2018.

The Miscellaneous Plan is closed to new members that are not already CalPERS participants.

Contributions: Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The Authority is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

 NOTES TO BASIC FINANCIAL STATEMENTS  
 June 30, 2018

---

**NOTE 3 - PENSION PLAN** (Continued)

The contributions to the Plan were \$91,285 for the year ended June 30, 2018.

Pension Liabilities, Pension Expenses and Deferred Outflow/Inflow of Resources Related to Pensions: As of June 30, 2018, the Authority reported a net pension liability for its proportionate share of the net pension liability of the Plan of \$1,044,537.

The Authority's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability as of June 30, 2018 is measured as of June 30, 2017 and the total pension liability is determined by an actuarial valuation as of June 30, 2016 rolled forward to June 30, 2017 using standard update procedures. The Authority's proportion of the net pension liability is based on a projection of the Authority's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined. The Authority's proportionate share of the net pension liability as of June 30, 2018 and 2017 is as follows:

|                              | <u>Miscellaneous</u> |
|------------------------------|----------------------|
| Proportion - June 30, 2018   | 0.02650%             |
| Proportion - June 30, 2017   | 0.02615%             |
| Change - Increase (Decrease) | 0.00035%             |

For the year ended June 30, 2018, the Authority recorded pension expense of \$201,734. At June 30, 2018, the Authority reported deferred outflow of resources and deferred inflow of resources related to the Plan from the following sources:

|   | <u>Deferred<br/>Outflows<br/>of Resources</u> | <u>Deferred<br/>Inflows<br/>of Resources</u> |
|---|---|--|
| Pension contributions subsequent to measurement date  | \$ 91,285                                     | \$ -   |
| Change in employer's proportion and differences between the employer's contribution and the employer's proportionate share of contributions | 18,744  | (2,707)                                      |
| Net differences between projected and actual earnings on plan investments   | 35,839  |  |
| Changes in assumption   | 158,462                                       | (12,083)                                     |
| Difference between expected and actual experience   | 1,277   | (18,297)                                     |
| Difference between actual and allocated contributions   | -   | (16,536)                                     |
| Total   | \$ 305,607                                    | \$ (49,623)                                  |

---

SACRAMENTO TRANSPORTATION AUTHORITY  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 June 30, 2018

---

**NOTE 3 - PENSION PLAN** (Continued)

The \$91,285 reported as deferred outflow of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2019. Other amounts reported as deferred inflow and outflow of resources relate to pensions and will be recognized as pension expense as follows:

| Year Ended<br><u>June 30</u> | <u>Amount</u>     |
|------------------------------|-------------------|
| 2019                         | \$ 43,316         |
| 2020                         | 88,320            |
| 2021                         | 54,340            |
| 2022                         | <u>(21,277)</u>   |
|                              | <u>\$ 164,699</u> |

Actuarial Assumptions: The total pension liabilities in the actuarial valuations for the Plan were determined using the following actuarial assumptions:

|  |                              |
|--|------------------------------|
| Valuation Date                           | June 30, 2016                |
| Measurement Date                         | June 30, 2017                |
| Actuarial Cost Method                    | Entry-Age Normal Cost Method |
| <b>Actuarial Assumptions:</b>            |                              |
| Discount Rate                            | 7.15%                        |
| Inflation                                | 2.75%                        |
| Payroll Growth                           | 3.0%                         |
| Projected Salary Increase <sup>(1)</sup> | Varies                       |
| Mortality                                | Derived using CalPERS        |
| Membership data for all funds            |                              |

(1) Depending on age and service.

The underlying mortality assumptions and all other actuarial assumptions used in June 30, 2018 were based on the results of a April 2014 actuarial experience study for the period 1997 to 2011. Further details of the Experience Study can be found on the CalPERS website.

Discount Rate: The discount rate used to measure the total pension liability was 7.15%. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate will be applied to all plans in the Public Employees Retirement Fund (PERF). The stress test results are presented in a detailed report that can be obtained from the CalPERS website.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

---

(Continued)

SACRAMENTO TRANSPORTATION AUTHORITY  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 June 30, 2018

**NOTE 3 - PENSION PLAN** (Continued)

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects the long-term expected real rate of return by asset class for the Plan as of the measurement date of June 30, 2017. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

| <u>Asset Class</u>            | <u>New Strategic Allocation</u> | <u>Real Return Years 1 - 10</u> | <u>Real Return Years 11+</u> |
|-------------------------------|---------------------------------|---------------------------------|------------------------------|
| Global Equity                 | 47.0%                           | 4.90%                           | 5.38%                        |
| Global Fixed Income           | 19.0%                           | 0.80%                           | 2.27%                        |
| Inflation Sensitive           | 6.0%                            | 0.60%                           | 1.39%                        |
| Private Equity                | 12.0%                           | 6.60%                           | 6.63%                        |
| Real Estate                   | 11.0%                           | 2.80%                           | 5.21%                        |
| Infrastructure and Forestland | 3.0%                            | 3.90%                           | 5.36%                        |
| Liquidity                     | <u>2.0%</u>                     | (0.40)%                         | (.90)%                       |
| Total                         | <u>100.00%</u>                  |                                 |                              |

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following presents the Authority's proportionate share of the net pension liability for the Plan, calculated using the discount rate for the Plan, as well as what the Authority's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage point lower or higher than the current rate:

|                       |              |
|-----------------------|--------------|
| 1% Decrease           | 6.15%        |
| Net Pension Liability | \$ 1,566,875 |
| Current Discount Rate | 7.15%        |
| Net Pension Liability | \$ 1,044,537 |
| 1% Increase           | 8.15%        |
| Net Pension Liability | \$ 611,928   |

Pension Plan Fiduciary Net Position: Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

---

**NOTE 4 – DEFERRED COMPENSATION PLAN**

The Authority offers its regular employees a deferred compensation plan under the provisions of Internal Revenue Code (IRC) Section 457. The plan permits these employees to defer a portion of their salary into future years. The deferred compensation is not available to employees until termination, retirement, death or an unforeseeable emergency.

The Authority has established a separate independent trust which is administered outside the Authority to hold the assets and earnings of its deferred compensation plans for the exclusive benefit of the participants that are not included in the Authority’s financial statements.

**NOTE 5 - OTHER POST EMPLOYMENT BENEFITS (OPEB)**

Plan Description: The Authority’s defined benefit OPEB plan provides OPEB benefit for all permanent full-time employees of the Authority. Benefits are set by the Board and may be amended by the Board. The Plan is a single employer defined benefit OPEB plan administered by the Authority. No assets are accumulated in a trust.

Benefits Provided: The Plan provides healthcare benefits to all permanent full-time employees who retire directly from the Agency, at a minimum age of 52, with a minimum of five years of service. Eligible employees’ surviving spouses are also eligible for benefits. The Authority participates in the Public Employees’ Medical and Hospital Care Act (PEMHCA) provided through the California Public Employees’ Retirement System (CalPERS).

Employees Covered by Benefit Terms: As of the June 30, 2017 actuarial valuation, the following current and former employees were covered by the benefit terms under the Plan:

|  |   |
|--|---|
| Inactive employees or beneficiaries currently receiving benefit payments | 1 |
| Active employees   | 3 |
| Total  | 4 |

Actuarial Assumptions and Other Inputs: The total OPEB liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

|                                 |   |
|---------------------------------|---|
| Valuation and Measurement date: | June 30, 2017   |
| Actuarial Cost Method:          | Entry-Age Normal Cost Method  |
| Actuarial assumptions:          |   |
| Inflation                       | 2.75%   |
| Salary increases                | 3.25%   |
| Discount rate                   | 3.13%   |
| Mortality rate                  | MP-2016 Mortality   |
| Pre-retirement turnover         | Macleod Watts Scale 2017<br>applied generationally  |
| Healthcare trend rate           | Medical 7.5% for 2019, 7%<br>for 2020, 6.5% for 2021, 6%<br>for 2022, 5.5% for 2023, 5%<br>for 2024 and after |

SACRAMENTO TRANSPORTATION AUTHORITY  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 June 30, 2018

**NOTE 5 – OTHER POST EMPLOYMENT BENEFITS (OPEB)** (Continued)

The discount rate was based on the S&P Municipal Bond 20 Year High Grade Index rate for tax-exempt general obligations bonds with an average rating of AA/Aa or higher at June 30, 2017 as published by the Federal Reserve.

Mortality information was based on the Society of Actuaries (SOA) MP-2016 Mortality Tables based on the results from of an actuarial experience study for the period 2013 to 2015. The experience study report may be accessed on the SOA website at <https://www.soa.org/research/topics/pension-exp-study-list/>.

Changes in Total OPEB Liability:

|                          | Increase<br>(Decrease)<br>Total OPEB<br>Liability |
|--------------------------|---|
| Balance at July 1, 2017  | \$ 157,325  |
| Changes in the year:     |   |
| Service cost             | 11,232  |
| Interest                 | 4,497   |
| Benefit payments         | (1,518)   |
| Change of assumptions    | <u>(9,257)</u>                                    |
| Net changes              | <u>4,954</u>                                      |
| Balance at June 30, 2018 | <u>\$ 162,279</u>                                 |

The changes in assumptions include a change in the discount rate from 2.68% in the prior valuation, to 3.13% in the current valuation. There were no changes between the measurement date and the year ended June 30, 2018 which had a significant effect on the Authority's total OPEB liability.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate: The following presents the total OPEB liability of the Authority, as well as what the Authority's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current discount rate:

|                    | 1% Decrease       | Current<br>Discount Rate | 1% Increase       |
|--------------------|-------------------|--------------------------|-------------------|
|                    | <u>2.13%</u>      | <u>3.13%</u>             | <u>4.13%</u>      |
| Net OPEB liability | <u>\$ 184,189</u> | <u>\$ 162,279</u>        | <u>\$ 144,631</u> |

(Continued)

SACRAMENTO TRANSPORTATION AUTHORITY  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

**NOTE 5 – OTHER POST EMPLOYMENT BENEFITS (OPEB)** (Continued)

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates: The following presents the total OPEB liability of the Authority, as well as what the Authority's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower or 1 percentage point higher than the current healthcare cost trend rates:

|                    | Current Healthcare Cost    |                                      |                            |
|--------------------|----------------------------|--------------------------------------|----------------------------|
|                    | 1% Decrease<br><u>6.5%</u> | Current<br>Trend Rate<br><u>7.5%</u> | 1% Increase<br><u>8.5%</u> |
| Net OPEB liability | <u>\$ 142,264</u>          | <u>\$ 162,279</u>                    | <u>\$ 193,474</u>          |

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB: For the year ended June 30, 2018, the Authority recognized OPEB expense of \$14,287. At June 30, 2017, the Authority had no deferred outflows or inflows related to the OPEB plan. At June 30, 2018, the Authority reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

|   | <u>Deferred<br/>Outflows<br/>of Resources</u> | <u>Deferred<br/>Inflows<br/>of Resources</u> |
|---|---|--|
| OPEB benefits paid subsequent to measurement date | \$ 6,521                                      | -  |
| Changes in assumptions                            | <u>-</u>                                      | <u>\$ 7,815</u>                              |
| Total   | <u>\$ 6,521</u>                               | <u>\$ 7,815</u>                              |

The amount reported as deferred outflows of resources related to benefits paid after the measurement date will be recognized as a reduction of the net OPEB liability in the following fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Year Ended<br><u>June 30</u> | <u>Amount</u>     |
|------------------------------|-------------------|
| 2019                         | \$ (1,442)        |
| 2020                         | (1,442)           |
| 2021                         | (1,442)           |
| 2022                         | (1,442)           |
| 2023                         | (1,442)           |
| Thereafter                   | <u>(605)</u>      |
|                              | <u>\$ (7,815)</u> |

SACRAMENTO TRANSPORTATION AUTHORITY  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

**NOTE 6 - OPERATING LEASES**

The Authority leases certain premises under an operating lease through November 30, 2027, at which time the lease expires. The rental rate increases \$100 per month each year of the lease beginning every December 1. In addition, as a condition of the Authority executing this new lease, certain tenant improvements were made by the landlord, the cost of which plus interest \$159,264 is to be repaid as part of the rental payments beginning December 1, 2020 through the remainder of the lease term. Rental expense for the year ended June 30, 2018 was \$19,596.

Future minimum lease payments under operating leases as of June 30, 2018 are as follows:

| <u>Year Ended<br/>June 30</u> | <u>Amount</u>     |
|-------------------------------|-------------------|
| 2019                          | \$ 36,700         |
| 2020                          | 37,900            |
| 2021                          | 47,416            |
| 2022                          | 55,781            |
| 2023                          | 59,298            |
| 2024-2028                     | <u>315,169</u>    |
|                               | <u>\$ 552,264</u> |

**NOTE 7 – INTERFUND TRANSACTIONS**

Interfund transfers from the General Fund to the Debt Service Fund were used to repay principal and interest per the debt agreement in the amount of \$22,520,621.

**NOTE 8 – LONG-TERM LIABILITIES**

The activity of the Authority's long-term liabilities during the year ended June 30, 2018 are as follows:

SACRAMENTO TRANSPORTATION AUTHORITY  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

---

**NOTE 8 – LONG-TERM LIABILITIES** (Continued)

Long-term debt consists of the following at:

*2009C Series Bonds* - In October 2009, the Authority issued Measure A Sales Tax Revenue Bonds in the amount of \$106.1 million to finance transportation projects approved by voters in 2004. The bond's variable interest rate is fixed through an interest-rate swap, whereby, the Authority pays a fixed interest rate of 3.736% and in turn, receives a variable interest rate based on 67 percent of the one month London Interbank Offered Rate (LIBOR) which is reset on a weekly basis. Principal payments of \$7.5 million begin in 2029 and increase to \$11.8 million in 2039 when the bonds mature. \$ 106,100,000

*2012 Series Bonds* - In July 2012, the Authority issued fixed rate Measure A Sales Tax Revenue Bonds in the amount of \$53.4 million to finance transportation projects approved by voters in 2004. The average coupon interest rate is 2.480997%. Principal payments in the amount of \$3.5 million began in 2017 and increase to \$5.7 million in 2028, when the bonds mature. \$ 46,315,000

*2014A Series Bonds* - In September 2014, the Authority issued Measure A Sales Tax Revenue Refunding Bonds in the amount of \$106.1 million to refund the outstanding series 2009A bonds and finance transportation projects approved by voters in 2004. Interest rate swaps were retained. In the floating-to-fixed rate swap, the Authority pays a fixed interest rate of 3.736% and in turn, receives a variable interest rate based on 67 percent of the one month LIBOR which is reset on a weekly basis. Principal payments range from \$7.4 million in 2029 to \$11.8 million in 2039, when the bonds mature. \$ 106,100,000

*2015A Series Bonds* - In March 2015, the Authority issued Measure A Sales Tax Revenue Refunding Bonds in the amount of \$106.1 million to refund the outstanding Measure A Sales Tax Revenue Series 2009B bonds and finance transportation projects approved by voters in 2004. Interest rate swaps were retained. In the floating-to-fixed rate swap, the Authority pays a fixed interest rate of 3.666% and in turn, receives a variable interest rate based on 67 percent of the three month LIBOR which is reset on a weekly basis. Principal payments range from \$7.4 million in 2029 to \$11.8 million in 2039, when the bonds mature. \$ 106,100,000

The Authority has pledged all of the future sales tax proceeds to cover all debt service requirements. The total principal and interest remaining on the 2009C, 2012, 2014A, and the 2015A bonds is \$593.9 million. For the current year, the interest paid and total incremental sales tax revenues were \$18.6 million and \$119.2 million respectively.

The 2014A and 2015A Measure A Sales Tax Revenue Refunding Bonds were issued to refund the 2009A and 2009B Measure A Sales Tax Revenue Bonds, respectively. The advance refunding resulted in no differences between the reacquisition price and the net carrying amount of the outstanding debt.

NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

**NOTE 8 – LONG-TERM LIABILITIES (Continued)**

As of June 30, 2018, the future annual debt service requirements and net payments on associated hedging derivative instruments on the Authority's 2009C, 2014A, and 2015A Series Bond obligations are detailed in the schedule below. These amounts assume that current interest rates on variable rate bonds will remain the same for their term. As these rates vary, interest payments on variable rate bonds and net payments on the hedging derivatives will vary. Included in the schedule are the future principal and fixed interest obligations on the 2012 Series Bonds.

| Fiscal Year<br>Ending<br>June 30, | Principal             | Bond Interest        | Estimated<br>Derivatives, Net | Hedging<br>Ancillary Fees | Total                 |
|-----------------------------------|-----------------------|----------------------|-------------------------------|---------------------------|-----------------------|
| 2019                              | \$ 3,740,000          | \$ 6,301,622         | \$ 8,442,249                  | \$ 995,388                | \$ 19,479,259         |
| 2020                              | 3,890,000             | 6,149,022            | 8,442,249                     | 997,970                   | 19,479,241            |

| 2034 - 2038                       | 156,700,000           | 7,634,204            | 15,429,231                    | 1,821,242                 | 181,584,677           |
| 2039                              | <u>35,400,000</u>     | <u>232,301</u>       | <u>469,456</u>                | <u>55,503</u>             | <u>36,157,260</u>     |
| Total                             | <u>\$ 364,615,000</u> | <u>\$ 78,869,761</u> | <u>\$ 134,500,790</u>         | <u>\$ 15,869,297</u>      | <u>\$ 593,854,848</u> |

**Arbitrage:** The Tax Reform Act of 1986 instituted certain arbitrage restrictions with respect to the issuance of tax exempt bonds after August 31, 1986. Arbitrage regulations deal with investments of all tax-exempt bond proceeds at an interest yield greater than the interest paid to bondholders. Generally, all interest paid to bond holders can be retroactive if applicable rebates are not reported and paid to the Internal Revenue Service at least every five years. The Authority's arbitrage liability is currently estimated to be immaterial.

**Interest Rate Swaps**

**Objective of the interest rate swaps and terms** - On October 18, 2006, the Authority entered into three forward interest rate swaps for \$106.1 million each in order to hedge the interest rate risk associated with the Series 2009 Measure A Sales Tax Revenue Bonds issued on October 1, 2009, and whose initial interest rate is variable.

**Terms** - The swap agreement requires that the Authority pay each financial institution semi-annual fixed-rate payments based on an annual rate; the financial institution, in turn, is required to pay the Authority a series of future variable-rate payments equal to 67% of the 1-month or 3-month LIBOR. The notional amounts and maturity dates of the swaps match the principal amounts and the maturity dates of the hedged bonds. The variable-rate coupons of the hedged bonds closely match the Securities Industry and Financial Markets Association (SIFMA) and percentage of LIBOR rates paid monthly. A summary of the terms are as follows:

|              | Notional<br>Amount | Effective<br>Date | Fixed<br>Rate<br>Paid | Variable Rate<br>Received | Fair Value             | Swap Term<br>Date | Counterparty<br>Credit Rating<br>(1) | Valuation<br>Level |
|--------------|--------------------|-------------------|-----------------------|---------------------------|------------------------|-------------------|--------------------------------------|--------------------|
| Series 2009C | \$ 106,100,000     | October 18, 2006  | 3.736%                | 67% USD LIBOR             | \$ (23,446,084)        | October 1, 2038   | Aa3/A+/AA-                           | Level 2            |
| Series 2014A | \$ 106,100,000     | October 18, 2006  | 3.736%                | 67% USD LIBOR             | \$ (23,448,289)        | October 1, 2038   | A1/A+/A                              | Level 2            |
| Series 2015A | \$ 106,100,000     | October 18, 2006  | 3.666%                | 67% 3 month LIBOR         | <u>\$ (21,797,204)</u> | October 1, 2038   | Aa3/A+/AA                            | Level 2            |
|              |                    |                   |                       |                           | <u>\$ (68,691,577)</u> |                   |                                      |                    |

(1) (Moody's Investor Services, Standard and Poor's Rating Services, and Fitch IBCA, Inc.)

(Continued)

**NOTE 8 – LONG-TERM LIABILITIES** (Continued)

*Fair value* - The swaps had a total fair value of negative \$68.7 million as of June 30, 2018, which is reported as a deferred outflow of resources. The fair values were estimated by an independent third-party based on mid-market levels as of the close of business on June 30, 2018. The fair values take into consideration the prevailing interest rate environment and the specific terms and conditions of the swaps. The fair values were estimated using the zero-coupon discounting method. This method calculates the future payments required by the swap, assuming that the current forward rates implied by the yield curve are the market's best estimate of future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for a hypothetical zero-coupon rate bond due on the date of each future net settlement payment on the swaps.

*Credit risk* - This is the risk that the counterparty will fail to perform under the terms of the agreement. As of June 30, 2018, the Authority was not exposed to credit risk on these swaps because the fair values were negative. However, should interest rates change and the fair values of the swaps become positive, the Authority would be exposed to credit risk in the amount of the swaps' positive fair values. In order to mitigate this risk, the Authority diversified its exposure among three counterparties. The swap agreements contain varying collateral agreements with the counterparties. The swaps require collateralization of the fair value of the swap should the credit rating fall below the applicable thresholds. If the Authority's credit rating falls below certain thresholds or is withdrawn, a termination event may result, in which case the Authority could immediately owe (or be owed) the fair market value of the swap.

*Basis risk* - This is the risk of a mismatch between the variable rate received from the counterparty and the variable rate paid on the variable rate debt that was issued in October 2009. The Authority is exposed to basis risk should the floating rate that it receives on a swap be less than the actual variable rate the Authority pays on the bonds. Depending on the magnitude and duration of any basis risk shortfall, the effective fixed rate on the debt will vary. Based on current and historical experience, the payments received under the agreements are expected to approximate the expected bond payments over the life of the swaps.

*Termination risk and termination payments* - This is the risk that the transaction is terminated in a market dictating a termination payment by the Authority. The Authority can terminate a swap at the fair market value by providing notice to the counterparty, while the counterparty may only terminate the swap upon certain termination events under the terms of the agreement. The Authority or the counterparties may terminate the swap if the other party fails to perform under the terms of the contracts, such as the failure to make swap payments. If the swap is terminated, the expected variable rate bonds would no longer be hedged.

*Tax Risk* - The swap exposes the Authority to tax risk if a permanent mismatch occurs between the variable-rate received from the swap and the variable-rate paid on the bonds due to tax law changes such that the federal or state tax exemption on municipal debt is eliminated or its value reduced.

---

(Continued)

**NOTE 9 – FUND BALANCES**

The Authority's net position and fund balance are restricted for the following purposes:

*Measure A Projects* – bond proceeds and sales tax revenues restricted by local ordinance for transportation-related projects.

*SCTMFP* – Sacramento Countywide Transportation Mitigation Fee Program (SCTMFP) funding for road and transit system improvements needed to accommodate projected growth and development.

*FSP Program* – funds restricted by the program for urban traffic congestion mitigation.

*Debt Service* – represent debt service reserves required by the related debt covenants.

*SAVSA* – Sacramento Abandoned Vehicle Service Authority (SAVSA) funds available to fulfill program objectives.

**NOTE 10 – GOVERNMENT-WIDE NET POSITION**

As of June 30, 2018, the Authority had negative net position of \$320.9 million. Under a typical bond financing arrangement, the public entity issues debt and expends the funds on capital projects that are reported on the statement of net position as capital assets. The capital assets generally offset the bonded debt. However, the Authority issues bonds that pay for assets reported in other jurisdictions' financial statements, resulting in a deficit net position. Therefore, the deficit will continue, but decrease over time as the Authority makes bond principal payments.

**NOTE 11 – SUBSEQUENT EVENTS**

The Authority's management evaluated its financial statements for the period ending June 30, 2018 for subsequent events through December 4, 2018, the date the financial statements were available to be issued. Management is not aware of any subsequent events that would require recognition or disclosure in the financial statements.

GASB Statement No. 68 was implemented during the year ended June 30, 2015. No information was available prior to this date.

The amounts presented for each fiscal year were determined as of the year-end that occurred one year prior.

Change in Benefit Terms: The figures above do not include any liability impact that may have resulted from plan changes which occurred after June 30, 2014 as they have minimal cost impact.

Changes in assumptions: In 2018, the accounting discount rate was reduced from 7.65% to 7.15%.

## **STATISTICAL INFORMATION**

SACRAMENTO TRANSPORTATION AUTHORITY  
STATISTICAL SECTION

---

This part of the Sacramento Transportation Authority's comprehensive annual financial report presents detailed information as context for understanding the information in the financial statements, note disclosure, and required supplementary information of the government's overall financial health.

**Financial Trends** – These schedules contain trend information to help the reader understand how the Authority's financial performance changed over time.

**Revenue Capacity** – These schedules contain information to help the reader assess the Authority's most significant local revenue source – sales tax.

**Demographic and Economic Information** – These schedules offer demographic and economic indicators to help the reader understand the environment within which the Authority's financial activities take place and to help make comparisons over time and with other governments.

**Operating Information** – These schedules contain information about the Authority's operation and resources to help the reader understand how the Authority's financial information relates to the services the Authority provides and the activities it performs.

**Sources** - Unless otherwise noted; the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND  
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS  
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors  
Sacramento Transportation Authority  
Sacramento, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Sacramento Transportation Authority (Authority) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated December 4, 2018.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose

**AGENDA ITEM # 11**

**COMMUNITY PERSPECTIVES ON LOCAL TRANSPORTATION NEEDS & FUNDING**

Action Requested: Receive Presentations

Key Staff: Norman Hom, Executive Director

---

**Background Information**

The STA has started the process of considering a supplemental transportation sales tax ballot measure for 2020 by inviting various community groups to come and present their perspectives on local transportation needs and ideas on how to pay for transportation improvements. Invitations were sent to over 75 local groups and organizations identified as likely to be interested in the potential measure.

**Discussion**

Your Board has been receiving presentations from various community groups since August. Today, we will wrap up with the last of the presentations from:

- |   |                          |
|---|--------------------------|
| ▪ 50 Corridor Transportation Management Association (TMA) | <i>Will Kempton</i>      |
| ▪ Greater Folsom Partnership                              | <i>Will Kempton</i>      |
| ▪ Ridership for the Masses (RFTM)                         | <i>Barbara Stanton</i>   |
| ▪ Sacramento Transit Advocates and Riders (STAR)          | <i>Delphine Cathcart</i> |
| ▪ Greater Arden Chamber of Commerce                       | <i>Shaun Dillion</i>     |
| ▪ Sacramento Sierra Club                                  | <i>Dyane Osorio</i>      |
| ▪ Sacramento Transit Riders Union (SacTRU)                | <i>Sarah Kerber</i>      |

Input received from all the presentations will be compiled into a report to be presented to the Board at a future meeting. Video clips of each presentation will also be posted to the new STA website for future reference.

**Notes**

- 1. Individual members of the STA Board are also participating in a Listening Tour to gather input from citizens in their communities about their transportation priorities.)*
- 2. Attached is a follow-up letter from Valley Vision, which presented to the Board on August 8. The letter outlines their "Big 5" priorities to improve mobility in our region for an inclusive economy.*

RE: 2020 MTP/SCS Investment Priorities

Dear Chairman Schenirer and Mr. Corless:

On behalf of our 33-member Board of Directors and staff, we write to urge the SACOG board to use your recently adopted prosperity and economic inclusion board policy as guide when making future investment decisions in your forthcoming 2020 Metropolitan Transportation Plan and Sustainable Communities Strategy (MTP / SCS) for this region.

As you know, Valley Vision is a civic leadership organization working towards economic prosperity, social equity, and environmental sustainability for all residents in the Sacramento Region. Indeed, we see ourselves as SACOG's regional quality of life champion and community engagement partner. Valley Vision is also one of the four investors and champions behind the Brookings Institute study and economic partnership designed to grow jobs and build a more inclusive economy that will improve the lives of all 2.5 million regional residents.

The four regional champions – SACOG, GSEC, the Metro Chamber, and Valley Vision – jointly agreed to utilize the Brookings Institute to conduct an “economic stress test” on the health of our regional economy. The decision to utilize Brookings was made due to the value we collectively placed upon Brookings' inclusive economy framework and methodology coupled with their extensive research and immersive study of the success factors that differentiate healthy, growing,

inclusive economic regions from others across the US and world.

Based on our own core values and expertise, and upon data and evidence drawn from Brookings Institute, McKinsey & Company, and other economic experts, Valley Vision contends that:

- Advanced economies are clustered in cities today, large and small. It is in these built-up areas where there is a concentration of firms, investment capital, labor, schools and universities, working together on technologies, cures, products and services. Cities are where jobs are located.
- The life-blood of modern, advanced economies is mobility and easy access, making SACOG's role pivotal in growing an advanced, inclusive economy here.
- To support inclusive job and business growth across the Sacramento Region, we must prioritize (1) fixing and maintaining the major mobility assets that we have; (2) improving the inter-operability of existing systems to increase access; and (3) investing in strategic mobility assets and technologies that connect existing job and education centers to improve opportunity.
- Doing the aforementioned demonstrates the importance of making decisions based on solid data and evidence; wise stewardship of cherished resources; taking the long-view; and placing the needs of the whole system first.

With these principles in mind, we offer the following priority investment themes for your consideration. Informally, we call them the "Big 5" priorities to improve mobility in our region for an inclusive economy.

- 1 & 2. At the top of the list, we must find a solution that breaks the traffic gridlock on Highway 50 and Highway 80 that are the backbone that links our region's largest job centers. We lose millions of dollars in productivity when people are stuck behind the wheel, and we make air quality far worse. Goods movement and commerce are blocked. These conditions impact everyone's lives, directly and/or indirectly.
3. Number three is making transit work for all people – working professionals and for people who do not have any other option but transit to get to work, school, or services. It makes little sense to have so many transit agencies in our region. Further, it

3400 3rd Avenue, Sacramento, CA 95817

(916) 325-1630

valleyvision.org

is overly complicated and, in some cases near impossible, to get between cities or across our region by bus, light rail, or bike safely, conveniently, and on time. This is a government efficiency problem as much as an infrastructure investment opportunity that continues to block people from jobs and educational opportunity and retards economic activity. Great strides are being made today by RT and other agency leaders, but an inclusive economy that engages all communities, especially the disadvantaged, requires us to act with urgency.

4. Number four is improving connectivity between Sacramento and the Bay Area. This will require vision and investment that goes beyond business-as-usual. Commuter train service and bus rapid transit should be actively advanced and expanded, in addition to Highway 80 capacity improvements. Being better connected to the world's epicenter for technology is a wise, long-term economic investment strategy and provides job and business growth opportunities to existing and new firms important to all communities.
5. Number five is improving connectivity and public investment in and around the Sacramento International Airport. This is our gateway to the world. Look at any other metro and their major airport is the hub of their transportation and job network. Access, opportunity, and growth – core tenants of economic inclusion – are served by public and private investment here.

Thank you for considering the point of view of the region's civic leadership organization. We look forward to our continued partnership with SACOG to build an inclusive economy that works for everyone.

Sincerely, and on behalf of the Board of Directors,

Scott Shapiro  
Board Chairman

Bill Mueller  
Chief Executive

## Public Transportation Priorities

**Sacramento Transit Riders Union (SacTRU)**

## Robust Public Engagement

---

- Develop an ongoing, broad public engagement program
- Show riders and the public how good our public transit system could be with additional resources
- Use outreach and research as a way to build momentum and enthusiasm
- Conduct a needs assessment at the neighborhood level and highlight specific projects and improvements additional funding could be used for

## **Continue Successful Programs**

- Replace aging light rail cars (working AC and low floors)
- Increase operating funding to provide more bus service and more bus routes – reach new communities
- Purchase buses (electric to meet GHG goals)
- Increase weekend service so that communities aren't stranded.
- Increase late night service so that more riders can get to and from work and school.

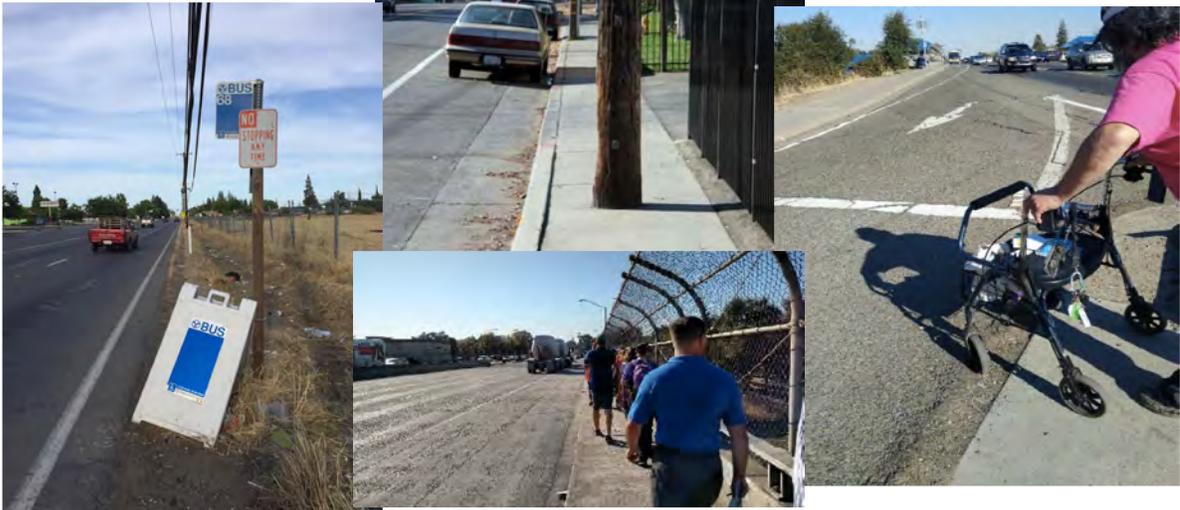

## **Continue Successful Programs**

- Investment in Bus Shelters and Station Infrastructure
  - Bus Shelter Mapping Assessment combined with Resources for Improvement
  - Improved transfer points
  - Improved pedestrian access
  - Create safe and clean spaces for our community
  - Fund elevator replacement and station enhancements at Watt/I-80 Station

## Infrastructure Investment Needed

## Continue Successful Programs

- Further Reduction in Fares
  - Funding to make discounted student fares permanent
  - Revive the Senior lifetime pass
  - Free transfers for all fare mediums
  - Off Peak group pass reductions

## Implement New Priorities

- Dedicated bus lanes to avoid delays due to congestion
- Express light rail service during commuter hours (match the speed of driving)
- Singular app system
- Simplified payment system, with the same fare access across all types (same benefits for cash and digital fares)
- Real time tracking
- Real time messaging (audio and visual) at stations
- Better wayfinding at stations and communication at bus stops

## No Public Transit Last Planning

- **No more transit last planning!**
- Public transit should be part of every economic development discussion you have.
- Transit impacts so many other issues, housing, access to jobs and healthcare and education, reducing pollution, congestion, it would be crazy not to make better public transportation a priority.
- Active engagement from every member on the board – make it fun!
  - Check out the SacRT Challenge – Positive Public Engagement!

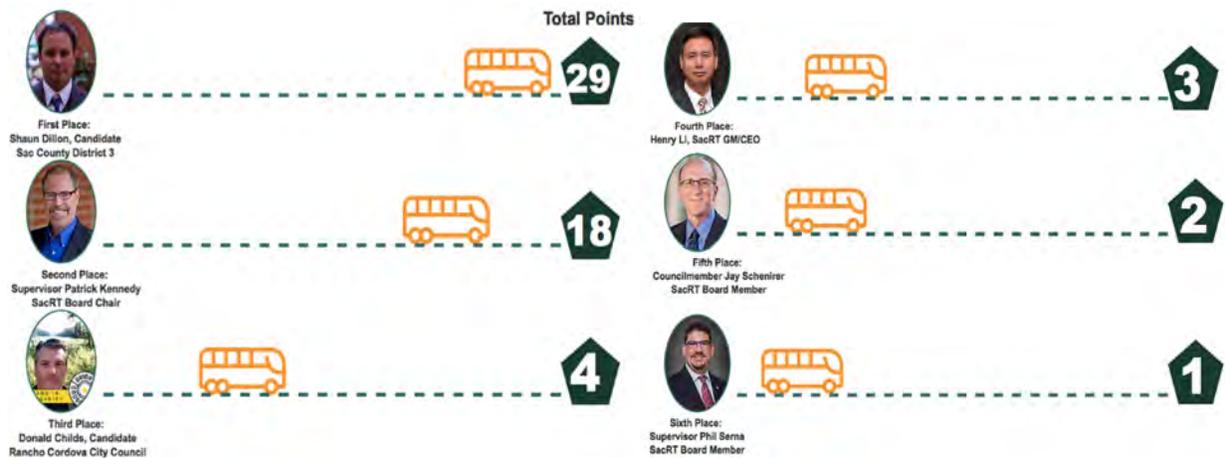

## #SacRTChallenge

- SacTRU invited RT Board members and other elected officials around Sacramento to participate in a competition that challenged community leaders to ride public transit for **1 week, September 16-22, 2018.**
- We believe that best way for our community leaders to make informed choices is through firsthand experience of what riding on public transit in our region is like.
- If *you* don't have access to transit between your work and home, that's exactly the same problem facing every one of your constituents.
- Make it better for you, make it better for your community, make it better for everyone!

## #SacRTChallenge 2018 Leaders

## Community Oriented Messaging

---

- People want to vote on concrete improvements in their neighborhoods and lives.
- Provide real examples of how expenditures are going to help them directly. Make it local. Make it meaningful.
- Get into the weeds for campaign and outreach material.
  - How will adding a bus route or light rail service increase the community's access to jobs, hospitals, and education?
  - How will better station infrastructure reduce crime, make waits better, lead to better vision zero outcomes?

## Thank you!

---

### What is a Transit Riders Union? It's simple!

The Sacramento Transit Riders Union is an independent, member-run union of transit riders organizing for better public transit in Sacramento County and beyond. Through our organizing efforts we will fight for lower fares and better service. We invite you to join us and fight for the future of public transit!

**DECEMBER 13, 2018**

**AGENDA ITEM # 13**

**CLOSED SESSION: STA EXECUTIVE DIRECTOR PERFORMANCE EVALUATION**

California Government Code §54957(b)(1)

STA PERSONNEL MATTER

Title: Public Employee Performance Evaluation — STA Executive Director

---

For this item, the Board will adjourn to Hearing Room 2 in closed session to evaluate the STA Executive Director's performance over the last year.

Hearing Room 2 is immediately to the right after exiting the Board Chamber.

Following the closed session, the Board will reconvene in the Board Chamber in open session and the Chair will announce what action, if any, was taken during the closed session.
