Item 2. Executive Director's Report re: Federal Infrastructure Bill.

Does the Board have concern about the issues raised in the Nov. 14, 2021 article in The Sacramento Bee, "Biden administration blocks transit money over pension law" (Page 12A, Venteicher and Lightman)? Are projects directed by STA affected by the possible ineligibility for funding by the federal government -- now and going forward? What actions might the STA Board take to protect federal funding for transportation in Sacramento County and to challenge the ruling by the U.S. Labor Department?

Thank you considering this inquiry.

Leslie Watts
Resident, Sacramento County
